

Senior Portrait Apparel - please read if you are taking senior portraits!

There are two types of pictures being taken, and each one has its own apparel. You can show up in whatever and we will make sure you have appropriate attire for your yearbook photo. Details and options are below.

1. Yearbook Photos

These are the formal pictures that go into the yearbook. Boys traditionally wear a tux or suit and tie; girls wear a black drape or black top/dress.

PROVIDED:

- Tux shirt, jacket & tie OR Black velvet drape - we have these items on hand and will fit you so you can wear them for your photo.
- If you are planning to use Images' attire, please take note: boys should wear a white or light colored t-shirt and girls should wear something that can pull down off the shoulders (preferably not sports bras).

OPTIONAL:

- If you prefer to wear your own clothing, you are free to do so, but you must follow these guidelines:
- boys should wear a dark jacket, white shirt and tie of their choosing
- girls should wear a black top or dress that has no print or shine to it.
- Religious headwear such as hijab is entirely appropriate, but please aim for classic or muted colors for the yearbook photo.
- Jewelry - optional but the traditional jewelry with the velvet drape is a simple pendant necklace or pearls with simple stud or pearl earrings. This is not a rule, just a tradition, so take it for what it is and be yourself.

2. Casual Photos

These are optional photos that you can have taken for no extra cost (moms like them, though, so not a bad idea). For these photos, you wear whatever clothing you prefer, and the photographer will put you in various poses and backgrounds.

If you are planning to take casual photos, come dressed for these, and we will do your yearbook photo after casuals are taken.

Most students choose dressy casual attire for this such as sundresses, khakis & polo shirts, etc. You may wear what you like, so feel free to be yourself!
