

Project Title

(Before moving on, make sure you share your team on this document)

Guiding Sentence:

Research:

Name	5 Sentence summary of article. Include URL	Link to video for information	Math related research

When table is complete, contact your teacher for grading (20 points)

Additional Research

Guiding questions.

Now that we have more information on this topic, what more do we want to know about this issue? Team lists at least 5 desired outcomes.

How might we go about finding this information (Surveys, research, skype interviews, etc)

Set up a plan for collecting information/research.

Assignments for research/data collection (one required per team for Spring Break):

Challenge - Using what you have learned from your research and your plan for gathering information, **how will you solve this challenge?**

(Once complete, see your teacher for points - 20 points)
