Ave Richterism!  
Ave Aleczander!  
Richterism never dies!  
Glory!

## Bare-Bones Preview

Notes in Red (fno) are Temporary. They are meant to mark certain things.

This is most definitely not the final version. This is more like an unfinished Demo. This is just the \*general\* outline of what will be gone through and featured. As a result everything is all over the place. The general plan is to first begin with the Richter story, then go on to list the Richter groups in order of time period, with Medieval Scotland at the beginning and the Galactic Empire at the end. Then it finishes off with the credits. The Richter story will list the groups in true order

# In the Beginning...

Year: January 2016 (When Alec started playing Roblox)

(Add more to introduction, need more info and clarification)

Alec identifies as a Conservative and is very interested in Germanic topics and material. He ends up finding out about Germany's decline. Feels that no one else but him and a select few actually care. Alec resented this. He became increasingly Nationalistic as a result.

(German Forces 1940s)

Year: 2016 - Mid 2018

Alec identifies as a Nationalist (?), gains a decent following. He and his followers shared this ideology. They supported the idea of preservation of culture, and great loyalty to your Nation.

However, as with every ideology, there are some cons. Alec was aware of the cons of Nationalism. Unoptical, unappealing to the general population, and as Alec came to find out, difference of importance when it came to loyalty. There were those of Alec's followers who admitted that they were plainly loyal to Germany, not Alec. These followers ended up turning their backs on Alec and forming their own Germanic-centered groups. Alec confronted them, stating the good quality of his groups, and inviting them to join in. After all, good quality usually results in a good experience. However, they fired back with a Declaration of Manipulation. They admitted to the concept of using Alec purely to boost the activity of the group, and told Alec to dismiss himself. What did Alec do?

Alec went for another group. Although Alec was still very Nationalistic at the time, he simply needed a change of scenery for a bit and wanted to try something new. Unfortunately, history repeats itself. Eight Months later, Alec experiences déjà vu and is again betrayed (Imperial Arcadia?). After this, Alec was left with a following roughly totalling 100. Alec had enough. He quit Roblox.

# The Revelation

Year: 2017-2018

Did I say "quit?" More like took a hiatus as stated by one of his followers, EthanRichterian. Indeed, it would turn out that Alec would decide to return. And when he returned, a New Hope dawned. Eight months after Alec quit Roblox, he decided to come back. Upon his return, "Scotland" was founded (**Imperial Prussian Army before Scotland?**). Those eight months gave Alec plenty of time for thinking. Upon the founding of "Scotland," Alec stated that they would not return to Nationalism. Nor would Monarchism be implemented. Many of the members responded with disappointment and surprise. They conveyed their desires for Germany. For the conquest of Europe. For the beating of the Allies. Alec responded with originality. Simply put, he wanted to do his own thing. Not something that had been done thousands of times before. No, he wanted something new. Something fresh. Ungrateful members were disgusted and let their anger take the wheel. They were angry at Alec and could not understand him. "You're a traitor to Germany! You're a traitor to the Fatherland! You should be shot!" Some of Alec's former "followers" left him.

After that episode, Alec was left with roughly half of his previous following. Among these people were Cody, Desert Fox, Draganov, Ethan, Polish, and Viany. Alec took a step back. A realization crept out and came to him. These ideologies. The very concepts that they believed in, that they took up. They ultimately weren't good for Alec's groups, nor for him. Who would find them beneficial? Rebels, looking down at the shadows of the firing squad before them. Realizing that they wouldn't die before their cause would. Instead their cause died before they would. Alec felt that there simply was no end goal for Germanic groups with these ideologies. Simply no point to uphold them. Thus, a new belief was born. A belief of loyalty to no other group, no other person, than Alec. And this my friends, was the birth of an Era.

During this, Alec showed great tolerance for the other ideologies, in fact allowing them to be present. As long as there was Loyalty. Not specifically, no. Simply, Loyalty to Alec. Those who showed no loyalty, stayed at the bottom. Being in such a position, the only way to go is up. However, the only way to go up was Loyalty.

Alec saw great success with this concept when it was put into action and this great success continues to this very day. Scotland was eventually sold. However, Alec didn't have to start up from scratch completely like so many others would have had to. No, 400 people left Scotland. Where did they go? Right to Alec. (KGB Group, then Oceania?)

Oceania:

Oceania was, as Alec puts it, "A more radicalized version of [my] Loyalty Program." And indeed it was. Oceania was the first to put to test the concepts of education and re-education. Soon other groups would follow, such as TNGE.

What would be taught was Loyalty. Not just its definition. Not what specific kind, but how much, how good, and how it was to be shown. Alec was first put upon to list out his standards for loyalty when a follower, proclaiming loyalty, proved to be anything but. This led to education being introduced. Alec wanted his followers to understand the quality of loyalty he wanted, and wanted them to be well versed in the maintenance of it. Oceania rewarded Alec with fantastic gifts. Mainly followers who were the definition of Loyalty Alec desired. Followers who were mainly loyal to him, and loyal to his groups as well. And at that time, a line was visible. There were those who were as serious as Alec and his trusted ones when it came to these groups. The line between the fanatics and the "fresh blood" as Alec calls the newbies, was clearly labeled and drawn. The Fanatics were those who were truly Loyal. Former fresh blood who had managed to cross over to the places reserved for those who had shown true Loyalty and gained the title of "Fanatic."

New fresh blood proclaimed that they were loyal. However many of them barely showed the said Loyalty they claimed to have.

# New Year, New Gifts

Year: 2018

Date: November

Alec devised a plan to keep the Loyal, and deal with the silly geese begging for ranks. He had a court arranged and held many on trial for treason. These charges would be brought over even the smallest of issues. This was intentional. At the end of the trial, all who were charged were found to be guilty, and were promptly exiled. The guilty were lined up outside. And it was there Alec proclaimed the arrival of discipline. And it's arrival would soon come to be.

The silly geese were soon turned from laughing stock to proper stationary. This would not be the only thing that would bless the new Era. Put your hands up for the moment you've all been waiting for!

Richterism!

Richterism, first introduced in November of 2018, was at first defined as Unconditional Loyalty to Aleczaender, the leader of the Richters.

Nationalism dominated the early eras, followed simply by a strict concept of Loyalty, and finally Richterism blossomed.

Richterism: Formed due to the incompetence that was present in the groups Alec was in.

The Richter Imperium was born in 2018, and continued into 2019.

Korea then followed after.

Year: Around Mid 2019

The Richter Supergroup known as The Revolutionary Superstate of Korea was born. It was to be a group with a "Communist Aesthetic." Around August I believe, Korea was sold. Italy rose in its ashes. Korea was reportedly a test of Loyalty. The test was a success. About only a dozen traitors left in exchange for the gain of around thirty of some of the most loyal Richters. Now that's good profit.

The Italy group that Alec and the Richters moved to was a Nationalist Italy. Things were beginning to look a bit dandy and sweet, but in the end ROBLOX ruined the treat. All good things must end as they say, and this may have been proven when Roblox terminated Alec's "ABRichter" account, as well as the Italy group. As if to make things worse, the youtube channel of the Great Leader was also lost. Fed up, Alec announced that he would quit Roblox. The Richters that remained mourned the loss of such a Great Leader. However they knew that they had to keep going. The show must go on as they also say.

SHAEF, TNGE, and Turan.

(Imperial State of Turan after and during TNGE)

(SHAEF After the Imperial State of Turan?)

(Turan sold before SHAEF for Scotland?)

(SHAEF after Scotland?)

(TNGE and Korea were rivals. However both used "Glory," and both were Totalitarian, according to Arcadius)

# Total War

Year: 2019-2020

(Make the beginning paragraph more serious?)

You have left what I refer to as one of the "Golden Ages of Richterism," and have arrived at a period of common war and espionage.

Date: August, 2019. (August or September? Maybe later?)

The Fall of a Super.

10/20 Palace Meeting

(Rumors of an alt? Ask Holderofall for more info)

(Ask HadrianSolum for 10/20 op-doc)

The Palace Meeting, 10/20/19.

Announcements were posted. Invites were sent and accepted. Many gathered for the meeting. Those who were invited, as well as their trusted assistants and guards who followed, were told that the Host of the meeting would appear shortly after many arrived. There were already Richter Guards stationed and watching. Little did anyone know of what was to happen. The Host eventually came, and was revealed to be ABRichter himself(He always comes back), using the account "Richter Legacy." The meeting started shortly after. Many prominent people were there. The Mecklenburgs, Respected Richters, Eagalians, and more. Followed by their personal assistants, their trusted, and their guards. ABRichter proclaimed the rebirth of a new Era that was to begin in 2020. New things would come, good things. The Old would fade away, and the New would take its place.

Date: June-December 2019.

The Wars.

(Video and Screenshots from other perspectives during the War are needed)

I promised you that there would be War, didn't I. Indeed there was War. Total War. TNGE was at War. Turan was at War. SHAEF (Which was formed by the Richters) was also at War during this period. Turan and its allies fought valiantly. So did TNGE and its allies. So did SHAEF and theirs. Korea and TNGE were allies until Korea was sold. However there still remained a Richter presence in TNGE. You see, there was an offer by He'rr Wilfried Mecklenburg that he extended to the Senior Council of the Richters. They accepted the Offer and thus received a place in TNGE. One of the prominent Richters in TNGE was ReinhardRichter. I personally served alongside him and can attest to his amazing skills and feats in combat. Another prominent Richter was AugustusDKRichter, a skillful official.

Oh, and also Tyskland and Saarland were involved in Wars during this period as well. Tyskland also had some Richter Presence. In Saarland, there was a presence of another group...

First off, during November-December, there was a war between the SHAEF and the Imperial State of Turan. Holderofall, the Emperor of Turan at the time, started off by calling for raids upon Richter groups. The Richters started off by sending their own people to raid Turan. There were formal battles and skirmishes of course. The factions involved were either Richterist or Anti-Richterist. Before the end of 2019, the Richters won the war, and Holderofall lost Turan. He instructed his own followers to go to another group. German Empire 1930s. This group failed. They took back Turan and Keph was "elected" Emperor. Turan failed a second time. Although this time they failed spectacularly. Many of their Higher Ups were humiliated by others. In the end some of the notable ones like Coop3r and JRFelix were exiled due to treasonous statements by them being unearthed.

Before that Coop3r was involved with an incident in which he ordered a KOS on Clumbsy, thinking that Clumbsy ordered a KOS on him after a messenger gave him evidence supporting that. This further showed the cracks in the Turanian leadership. In the end, Holderofall and his remaining followers retreated to the Kingdom of Denmark, where it slowly decays to this day while the Richters are going on strong. With that, another Anti-Richterist group was defeated. As the end of 2020 approached, there was much to celebrate. Perhaps the near year would spark yet another era of Richter Achievement.

# New Surprises

Year: January 6th, 2020

The German Socialist Republic was formed. It was a combination of many Richter groups as well as annexed groups.

(Sometime between January and September, the German Socialist Republic is banned. The German Democratic Republic is made as a replacement)

(Korea is revived once again)

(Korea dies)

September 2020

The Richter Dynasty and Lavos's Imperial Confederation of the Rhine unallied each other. Aleczaender explains that Lavo and he disagreed about the specifics for a division, and staff from Lavos's group insulted him. Anyone from Richter-related groups and affiliates are blacklisted from the Rhine.

September 2020

There is a possibility of war with the Rhine.

October 2020

Eternal Octavia is unveiled and the work begins. The Rhine and Octavia are at war. Octavia successfully takes France and occupies it. Paris becomes a staple city in Octavian-occupied France.

October-November 2020

The African Front is opened. Octavian troops launch an attack on Rhine-occupied Cairo. Further attacks and raids stem from this. Octavia establishes its African territories and fights to secure and expand them. The Americans launch an attack on Octavia, opening the Western Front. Octavian troops successfully repelled the American Invasion. The United States decides to focus on the African Front, and assist the British, Russian, and Rhineland troops there. Later on the battle for Britain begins as Octavia launches a full scale invasion. Britain falls under the heel of Octavia's advancing troops, Britain is then fully taken and occupied by Octavia with London looking to become a staple city in Octavia's British territory. Tensions between Octavia and the Zusten Realm flare as the Space Race between Octavia and the Zusten Realm ends with Octavian Astronauts being the first to step foot on the Moon. This foreshadows the Richters' evolution to the Galactic Era.

November 2020

The Confederacy of the Rhine falls to Octavia. Now Allemania steps in as the new obstacle to peace in Europe. The Russians and Octavians have made a truce and agreed to help each other. During the final battle with the Rhine, Russian and Octavian troops successfully overrun the Rhine, and the territory is split between Octavia and Russia. With Central Europe being divided down the middle, Northern-European and Southern-European countries have little hope if they wish to continue fighting against Octavia. Also more on Octavia itself, the Supreme Marshal hosts an extremely effective Loyalty test by "exiling" OswaldRichterian, a well-known Richterist that was beloved by many and hated by some. Those that hated him were the subjects of this test. When the Supreme Marshal brought back Oswald, the haters left in anger, further ridding Octavia of traitors and those consumed by selfishness.

December 2020-January 2021

As the integration of London into Octavian Society and Culture is underway, plans for the future become more apparent. With the Richters' sights set on the Stars, one can hope to fight for a paradise in the Final Frontier.

London is officially an Octavian city of great beauty, enhanced by its Octavian occupiers. As London shines brighter than ever before under the banner of Octavia, [Octavian Scientists and Engineers make groundbreaking discoveries. A way to the stars, a way to the Final Frontier beyond Earth's satellite. They discuss it with AlecZander, who graciously approves and provides the resources needed. With that, the Richters will migrate to beyond. Richter pioneers shall honor their predecessors and forge a celestial paradise as they tame this frontier. A Gold rush shall begin, only instead of gold it will be stardust.](#)

VIVA RICHTERISM! VIVA ALE CZANDER! LONG LIVE RICHTERISM!

January 2021

As the Richters plan to ascend life on Earth, they still have their haters who wish to spoil their farewell party. Et Imperium Germanica blacklists Octavia due to "nazism" and presence of "pedophilia" within Octavian ranks. These accusations are insulting, and very overblown. They clearly disregard history and are blind. Furthermore, Richterism itself is not Nazism. It seems groups like Et Imperium Germanica attempted to view themselves as up to the level of dedication and activity that Octavia encourages, maintains, and vies for. Et Imperium Germanica is nowhere near the amount that Octavia vies for when it comes to dedication. Their comments of "nazism" directed towards Octavia when viewing our requirements are a blatant hint of their ignorance. Octavia is a war group. Some war groups like Et Imperium Germanica are simply serious. Some war groups are for fun, and not as serious as war groups such as Et Imperium Germania, nor as organized. However Octavia is at the rung of war groups reserved for the very serious and organized. Simply put, we push the boundaries. However not even we are at the max.

There are war groups that take it to a whole other level. War groups that are way more serious and demanding than Octavia. War groups that do... odd things, to ensure dedication and activity. Whilst Octavia is definitely very serious and demanding, we're not at *that* level. Those of us in Octavia view those at the higher levels to be something else. Certainly odd. So it would make sense for a war group such as Et Imperium Germanica to view us as odd as they are on a lower rung when it comes to seriousness and dedication. As such we do not wholly blame them for it. Personally, I view their actions of mocking speeches made by our leader as a bit childish, but I don't pay it much attention. After all, we have successfully managed to maintain 30+ activity every day for a whole week. As for them? 30+ is a special occasion or a raid. Their averages stem at 15+ (if you want to be generous) Anyways I digress. Though Et Imperium Germanica is certainly acting foolishly when it comes to the blacklist (it's not like we would war with them in the first place, after all we didn't pay any attention to them at all until we heard that they blacklisted us, they're not even in our lore at all) and is representative of those who jeer at wild bears while maintaining distance. As such, we do not have any notable disputes with them (though I would add that at least we are honorable and keep our word)

Anyways, enough with the rotten fruit and onto the bountinous feast. Alemania is failing, our enemies are either dead or incredibly inactive. All in all our farewell is going great. [We have faced many trials and challenges during our times on Earth. From our ancestors in the medieval period, to their descendents of today, all have faced great challenges.](#)

All throughout our time we have been mocked constantly by other groups out of jealousy, ignorance, or simple foolishness. But through it all we have constantly proved them wrong time and time again. Many times they rejoiced when a Richter Project was cut short by ROBLOX. However, each time we experienced a set-back, we came back stronger and better than before. We have annexed and puppeted many groups, and still have influence over many still. We have become one of the biggest, if not the biggest, war groups in Roblox for some time.

While groups such as Et Imperium Germanica require assistance from degenerate traps and anime femboys, we worked hard for the fruits of our labor. Our loyalty is on another level compared to the loyalty found in other war groups (picking on EiG again, some of their allies are allied with their current enemy, the Soviet Union. Take a look at the "Wolfenchan" allies tab) From Richterist groups, great loyalists are born. We ensure that we have high quality leaders at every rung in our Armies, for only the best will strive and progress.

Throughout Octavia's period in the WWII community, we have only lost maybe one raid, and that's being humble. Our enemies love to make propaganda focused on such isolated moments while we make our propaganda from several of \*their\* bad moments. And the moments we use aren't that of lost raids, no, they are of things such as sickness (Alemania) idiocy (some random groups that have raided us for kicks and got cocky) and foolishness (the Zusten realm)

While our enemies and critics attempt to take as many pot shots at us as they can before we leave them in the dust as we depart the Earth in search of a brighter future, we are planning and building our way to paradise. The Final Frontier will be a suitable place for Richterism to strive and spread. Away from the idiocy of our enemies on Earth, who are still struggling to evolve to the level we've already reached. Away from that, and closer to the real challenges. We will be facing powerful opponent Empires in the Galaxy. While we may ally with some, others will simply cut to attacking us. They are the real challenge. The real proof of evolution gained through beating them. However, we are Octavians. We are Richters. We will work together as one, and beat them.

We will rise to what is needed of us, and surpass such expectations and requirements.

Here's to a glorious future in the Stars! Here's to Richterism!  
Here's to our great leader Aleczander!

And here's to our enemies and critics. Yes, here's to them. For while they have been a pain, they have helped us greatly. They have helped us evolve. Each has presented challenges and obstacles to us, only for us to overcome them. Our enemies have berated us and attacked us at every angle and every moment. Those actions have served to further strengthen us and harden our determination. So here's to them. Here's to the Zusten realm, thank you for the space race full of tension. Here's to the Rhine, for your raids and battles. Here's to the anarchist groups, whose goals brought them at odds with us. Here's to the traitors and disloyal, for you have further rid us of people like you and were found out and promptly dealt with. Here's to our critics, who served to present us with valuable insight picked from their ramblings. This may seem odd, and indeed it is in general when it comes to the war genre, but thank you. Thank you for being a part of our growth, our history. We will not forget your contributions. We bid you good luck on this war-infested mudball we call Earth. May you strive to also contribute to the growth of other war groups seeking to gain a place and working for it, thus placing them on the path to achieving it. Ave!

January 16, 2021.

There was a meeting called to discuss the future of Octavia, a future in the stars. This document will serve to remind us of our history, and inspire the future.

January 20, 2021

Octavia has reached space. We bid farewell to our brethren who will remain on Earth. They will prepare the world for our return in the future, and hopefully bring about World Peace. For now, some of us have been sent to space to find paradise, or make it. Who knows what the future has for us.

It all comes back in a circle.

Our ancestors who left Earth in the name of Octavia and Richterism have successfully established colonies as they planet-hopped. Discoveries of useful materials and elements have enabled us to rapidly advance in the realm of space and science. We are still known as Galactic Octavia. We have been in contact

with numerous alien species throughout the centuries between our space-faring ancestors and now. We have greatly advanced, and are capable of refined space travel. Due to our time in space, some of us have evolved to some extent. The evolved are sort of their own species, but still related to humans. Most of the evolved are in the Richter bloodline, and thus they are the Richterist race.

February 12th, 2021

Of course, the deceitful die hard. As the Richters were getting ready to launch another WWII era group this time focused on an alternate history version of America to serve as a Richter puppet group, trouble struck. ExileRichterian betrayed the Richter Dynasty, and after the group was launched the viperous traitor gave ownership of the group and related discords to the dastardly Lavoists. The Lavoists quickly integrated many of their people and other anti-Richterists into the group. But all is not lost. ExileRichterian lost his closest friends and followers as a result of his betrayal. Furthermore, the group they stole is dead and yet to be revived. The newly integrated foolishly celebrated. They believed that they were the first to successfully break away from the Richters and face the Richters head on, thinking they would be victorious. In response, the Richters have landed on the Western Coast of America, and have already taken some territory. We will liberate America from the deceitful scum that now rule it. They will fail, and they will perish. The Lavosists awoke a great beast, and they will suffer the disastrous consequences.

In other news, the Richter Imperium has been launched. The Lavosists will have to face the Richterist Imperial American Commonwealth.

April 21st, 2021

AlecZander has called a meeting and is discussing the exciting future that lies ahead for the Richterian people. From February to April many events have happened. The theft of Korea and America, the betrayal of VianyRichter and polishrifle. The disgusting accusations by InaciusSolum. Still the Richters stay steadfast.

There will be a Richter Manifesto detailing doctrine and the heritage of the Richters. Viva Richterism!

AlecZanderRichterian has stated that the newest group to be released will be the last he leads. We shall forever miss him! We trust the successor, RichardRichterian, to lead us all to glory as AlecZander himself had done before.

June 28th

Galactic Octavia is doing well with its rallies. Soon, Richard will take the mantle of leader, and guide the Richterian people as AlecZander has done before.

(note, Richterists already were in sci-fi genre before due to Galactic Empire)

(Fun facts will be sprinkled throughout the document, as well as screenshots and videos. Many will be in order of Era)

(There will be short sections for many of the Richter groups, the goal is to put them in order)

Fun Fact: Due to the fact that the Discords of all Factions involved were basically public, there was a fear of spies from all sides. Many Third Party Groups were enlisted to help deal with said spies and to help their Ally and/or Employer with counter-espionage. Officially, around 30 spies were caught.

(September - December 2019)

Fun Fact: Turan's main city used to be the "Cologne V2" of TNGE. The map was apparently sold after the demise of TNGE, which would explain how Turan got a hold of it. It was renamed "Frankfurt" under Turan (Holderofall's Reign)

(October-December 2019)

Fun Fact: The "Mother" of the person who led Tyskland was accused of being a spy. She was later kicked out of the Tyskland discord due to undisclosed evidence provided by an unknown informant that supposedly proved her guilt. This may be an example of the extreme paranoia present at the time, or an example that anyone and everyone is willing to backstab anyone and everyone.

(November-December 2019)

Fun Fact: There once was a Shock trooper from the Shock Force of TRSK that was kicked out for immaturity among other reasons. The former shock trooper was so mad that he joined up with the enemies of the Richters at the time, and swore that he would destroy the Richters. Obviously the fool failed.

(July-September 2019)

Fun Fact: There is a funny meme depicting Lavos in front of Avocados. The meme states, "The Plantation of the Rhine. Lavocados."

(August-September 2020)

Fun Fact: "Ave Lavos," kinda sounds like "Avocados."

(September 2020)

# Deutsches Heer (WWII)

Deutsches Heer, the group of legend

Deutsches Heer was launched on October 28th, 2016. It's launch is one of the most well-known launches in Richter history. "Deutsches Heer 1940s" was based on a WWI group with a similar name. As of yet, Deutsches Heer may be considered one of the first Richter groups.

# Richter Dynasty

The Richter Dynasty, a notable group that serves as a hub for the Richterian people. With over 1,000 current members as of June 2021, the Richter Dynasty will forever be a symbol of Richterism. One of the places under the Richter Dynasty, The Alps, is a place where the history of the Richters can be learned. The Alps has the residence of the leader himself, guarded by the notable Richterian Guard.

The Alps feature various dedications to several prestigious Richterian groups, such as Turan, Britain, and Oceania. From the era of the Richterian Knights, to the Richterian Shock Troopers. The Richters certainly have a deep and rich history worth checking out. Through the history of the Richters you will come

to see their struggles, their drives. You will see them at their highest, and at their lowest. You will see times where the Richters have suffered defeat, and when they have achieved glorious victories.

## Prussia (Napoleonic)

The Era of Muskets and Line battles

Napoleonic Prussia came to be the new group that the Richters would move over to after the unfortunate loss of “Deutsches Wehrmacht 1940s” after a traitor put a wrench into the group’s launch. Napoleonic Prussia was provided to Alec by a loyalist by the name of SupremeWingman8. Thus, the Richter’s presence in the Napoleonic genre would commence. The British themselves would find themselves fighting alongside the Prussian Richters against the French. It was at the battle of Waterloo that the Prussian Richters would be thrust into a higher platform. As the British dealt with the French while being assisted by the Prussians, a force of Prussians would flank and engage the French. This flank would distract the French long enough for the British to make a decisive move and have their elite units charge into battle. The French utterly lost the battle. They would later attack the Prussians at one of their forts, this time

before Prussia, but due to the actions of a dastardly traitor to the Richters, it was stolen.

Aleczander however got enough funds from the Richter involvement in the Napoleonic era and was able to relaunch the group. Alas, Deutsches Wehrmacht 1940s would be unfortunately afflicted like its predecessor, and it ended up being content-deleted.

# The Richter Empire

The Richter Empire was born after the content deletion of Deutsches Wehrmacht 1940s.

Involvements:

Sabotage against a United States group

Adler War

Total war against the Allied Powers

War against Britain

## The Empire of Itatio

The first Richter Colony (Picture provided by AleczanderRichterian courtesy of the document)

The Empire of Itatio would be created during the time of The Richter Empire. It was led by Benjamin Richter, but would unfortunately only last two weeks.

# The Duchy of Swabia (Medieval Era)

(Courtesy of the document by AlecZanderRichterian)

The Duchy of Swabia was a Richterian Medieval era group that was active during a period of decline within the Richter Empire. The Richter Empire would end up undergoing revival after the Duchy of Swabia.

## Scotland(1100s)

Medieval Scotland, where a New Dawn is forged.

(Interview some of the Old Guard about Scotland.)

(Lionheart [Alec] Liberated a Castle)

(check if medieval scotland is the furthest era when it comes to Richter groups)

Our Ancestors. We will make them proud.

“Long live the King.”

accepted Alex's proposal with excitement, and plunged knee-deep into the universe created by George Orwell's "1984."

Oceania is the group where the loyalty initiative and loyalty tests were put into effect.

The loyalty tests proved successful, and have been used time and time again by Alec since Oceania. All times have brought great results, and further weeding out of traitors and the power-hungry.

Oceania definitely set forth events that would dictate the course of Richter-kind for the next millenia. Fanatical loyalism, determination, and great willingness. All in the name of Alec, the great Richter leader.

Alec's efforts have greatly impacted our standing in the genre today. Instead of weak, we are powerful. Instead of having to start over from scratch everytime we do a new group, many loyalists from the first join. Instead of only gathering around ten people for

a raid, we gather 25+ and sometimes 50+! We as Richters have found great success in our careers! So repay your success with undying loyalty to Alec. Remember, Big Brother is watching you! Oceania came after the unfortunate termination of the group "The State of Danzig." Oceania marked Alec's return to the WWII genre, this time as a politician. Oceania would prove to be a great monument to Richterist achievement.

Oceanian Troops confronting an ODer. Big Brother himself is leading them.

"Just a normal day at the border checkpoint of Oceania."

"Border Population."

# Richter Imperium

“Fight for the Emperor” - Provided by Alec.

The Richter Imperium holds a high place in the hearts of the Richterian people. A group so popular, it was formed more than once. The Richter Imperium saw many achievements by the Richters in the fields of politics, and war. Richterism would flourish, indeed the Richter Imperium saw fortune akin to the Romans whose military dress inspired the uniforms of the Imperium.

The Imperial Guard

# The Revolutionary Superstate of Korea

The Korean Superstate

## TRSK

The Revolutionary Superstate of Korea came after the end of the war between the Richter Imperium and the Kernmagne Realm, with the Kernmagne Realm falling into disarray. The integration from the Richter Imperium to The Revolutionary Superstate of Korea filtered out the loyalists from the weak, with over 25% of the Richter Imperium's members going into TRSK. The rest stayed

behind, forgotten. TRSK was officially launched on the 19th of April, one day earlier than planned due to the sheer amount of members joining. And so, the spring of 2019 saw the beginning of one of the biggest groups in Richter History.

The beautiful beaches of Guam, defended by the loyal army of TRSK

TRSK would eventually release another map, Pyongyang, to replace Guam. Pyongyang had its own unique and aesthetically pleasing atmosphere that would improve upon the atmosphere Guam had. TRSK would have 4,000 members before the tides of betrayal rocked the boat. An individual going by the username “Parsifal” would betray Alec and transfer the group and all its funds under HorstKerovech, AKA Lavo. TRSK would soon be under Rhine occupation.

# Imperial State of Turan (WWII)

Welcome to Turan. Please enjoy your stay, Glory!

Turan would be a slight pivotal moment in Richter history. The calm before the storm.

Turan indeed would be a testament to the challenges to come, and there would be many.

Turan itself was a breeding ground for die-hard loyalists. The atmosphere was loyal, the ground was loyal, and the fruits were loyal. Turan bore many specialists dedicated to the Richter Cause. This inadvertently enabled the Richters to

be well prepared for the many wars that would come. The Turanians were all grateful to Alec for his hard work, and they repaid his hard work with great dedication.

# Eternal Octavia (WWII)

WELCOME TO THE FINAL CHAPTER OF RICHTERISM ON EARTH. OCTAVIA WAS THE LAST GROUP BEFORE RICHTERIST ENGINEERS FOUND A WAY TO PROPEL THE RICHTERISTS TO THE FINAL FRONTIER. Octavia was one of the greatest Richter groups ever.

(This is all temporary and will be reworked, fluffed, and decorated)

ETERNAL OCTAVIA ORIGINATED IN THE IBERIAN PENINSULA. ALE CZANDER WAS DETERMINED TO BUILD A BETTER FUTURE FOR HIS PEOPLE. HOWEVER THERE WAS TROUBLE BREWING IN EUROPE AND HE HAD TO ACT. OCTAVIA WAS ATTACKED, AND IN THE ENSUING COUNTER-ATTACK, FRANCE WAS BROUGHT UNDER THE OCCUPATION OF OCTAVIAN FORCES. OCTAVIAN-OCCUPIED FRANCE SAW PROSPERITY UNDER THEIR NEW RULERS. HOWEVER NOT EVERYONE SAW IT THAT WAY. THE DASTARDLY FRENCH RESISTANCE SOUGHT TO WRECK THE PROSPERITY AND PREVENT FRANCE FROM RECEIVING ANY MORE BLESSINGS. FORTUNATELY AT EVERY TURN, THE BRAVE SOLDIERS OF OCTAVIA FOILED THE PLOTS OF THE FRENCH RESISTANCE AND

UPHELD THE PROSPERITY OF OCTAVIAN-OCCUPIED FRANCE. AS OCTAVIA OPENED UP THE AFRICAN FRONT, BATTLE RAGED ON THREE FRONTS, SOON TO BE FOUR. AS THE AMERICANS INVADED FROM THE WEST, THE RHINELAND FROM THE EAST AND THE AFRICAN FRONT, AND THE BRITISH FROM THE NORTH, OCTAVIA REPELLED THEIR ATTACKS AND PUSHED FORWARD. SOON AFTER THE RHINELAND WAS DEFEATED IN AFRICA, AND OCCUPIED IN EUROPE, RUSSIA ALLIED WITH OCTAVIA. AFTER AN INITIAL INVASION ON BRITAIN BY OCTAVIAN FORCES, THE BRITISH WERE PUSHED FURTHER AND FURTHER INLAND UNTIL THEY WERE FORCED TO SURRENDER AS THE OCTAVIANS SURROUNDED LONDON. WITH THE BRITISH OUT OF THE WAY, OCTAVIA COULD FINALLY FOCUS ON CENTRAL EUROPE. AS TENSIONS BETWEEN OCTAVIA AND THE ZUSTEN REALM FLARED, ACTIVITY IN ALL ASPECTS BOOMED. PREVIOUSLY, OCTAVIA AND THE ZUSTEN REALM HAD A SPACE RACE, IN WHICH OCTAVIA SUCCEEDED IN PUTTING THE FIRST MAN ON THE MOON. BACK TO THE PRESENT. THE ZUSTEN REALM WAS OCCUPIED BY OCTAVIAN AND RUSSIAN FORCES IN A QUICK SKIRMISH. FROM HERE ON OUT MOSTLY MINOR BATTLE WOULD HAPPEN BETWEEN OCTAVIA AND FORCES IN CENTRAL EUROPE. HOWEVER OCTAVIA'S VICTORY AT THE END OF THE WAR WAS CONFIDENTLY SECURED. DURING THIS, OCTAVIAN ENGINEERS, SCIENTISTS, AND SCHOLARS WOULD RESEARCH, DEVELOP, AND PERFECT PROTOTYPE TECHNOLOGY THAT WOULD GRANT THE POSSIBILITY OF SPACE FARING EXPLOITS. RICHTERISM WOULD SOON NOT BE CONFINED TO THE EARTH, IT WOULD FLOW OUT INTO THE FINAL FRONTIER.

Octavia would end up fighting British forces in Africa

# THE GALACTIC ERA

Richter Stormtroopers at a rally.

THE GALACTIC ERA EXHIBITED A PERIOD OF GREAT PROSPERITY FOR RICHTERISTS EVERYWHERE.

Our descendents. These are the successors to the initial Richter ventures into the Galaxy. The Richters have survived and thrived for thousands of years at this point. From Medieval Scotland, to the Galactic Empire. We have outlived most of our enemies from Earth so long ago. In the end they went to their graves knowing that we were looking at them from up above, and laughing.

First let's turn back the clock a bit, to thousands of years prior, to when Octavia first ventured into space. The Richters have a proud and strong heritage. Hundreds of years on Earth, and thousands of years in Space.

# Kingdom of Great Britain (Colonial)

The 42nd Regiment, with Aleczander as one of the leaders and responsible for its formation.

Aleczander would guide the Richtertian people, and they would fight as British soldiers in the 42nd Regiment, and the 7th Company. The 7th would be responsible for raiding the Continental Army of the United States, with Aleczander leading them into battle. After this, Aleczander transferred to the 42nd Regiment as a Lieutenant Colonel.

# The Timeline (Era's)

Alright so bear with me here.

This timeline will focus on the order of Era's that the Richters have lived through. (lore-wise?) Now to avoid confusion and back and forth know that the Richters, though united by a sole cause, have been split many times into groups. While one group may be with Alec, the other may not be with Alec himself, but still be serving him.

# Richter Uniforms: Past to Present

Uniform of Deutsches Heer.

Uniform of Prussia.

Uniform of the Richter Dynasty. The uniform is a maroon double breasted jacket with two pockets, along with black pants and black footwear. The jacket has a black belt with a silver buckle and a black sash (? forgot exactly what it is called) Underneath the jacket is a white shirt and black tie. Two tops of the two flaps feature black collar patches

On the left arm is a patch with the trademark image of the Richterians, a gold noble lion with an olive wreath. On the left cuff is a black band with the word "Richter." There are also black epaulettes with white buttons on the shoulders.

A black peaked cap with a maroon band completes the outfit. The band has the trademark noble lion on the front.

Uniform of the Kingdom of Great Britain. Red jacket of the British Imperial Army. Notice the green plaid kilt that marks this uniform as a part of the 42nd Regiment of Foot, the Highlanders.

Uniform of Turan. Green jacket with four pockets on the front as well as black footwear. The collar features two brown patches. Two epaulettes with white buttons adorn the shoulders.

A dark green helmet with the symbol of a grand bird.

The right arm features a wolf's head inside a diamond.

Uniform of Eternal Octavia. Olive green double breasted jacket with four pockets, gold buttons, and some maroon. Tan pants and black boots fit for many types of terrain complete the outfit. Maroon epaulettes on the shoulders, lined with white fabric. Olive helmet with a black strap. A black strap with a gold buckle runs across and around the torso from shoulder to waist, and is connected to the black belt which also has a gold buckle.

The collar has two maroon patches, the amount of stars on the patchets can signify certain ranks. The patches themselves are lined with red and white fabric.

On the left arm is a black band at the wrist, with the word "Octavia." There are two gold wrist buttons on each arm.

Armor of Galactic Octavia. In a future where old-fashioned cartridge guns are relics, and blasters firing high-temperature bolts are the norm, highly-advanced armor replaces the kevlar vests of old. The helmet features a built-in flashlight and an advanced optic specialising in range-finding and target tracking

Beneath the armor is some winter camo, perfect for the icy environment. As time passes things get smaller, a phrase especially exemplified here as a neat combat pack on the back, equipped with all the necessities for battle and survival.

# Uniforms of the Leader

The classic outfit of KaiserABRichter. A spiked cap with a bronze emblem on the front. The uniform itself is white with gold detailing and gold epaulettes with tassels. Maroon cord can be seen, as well as a maroon sash and a maroon band on the left arms. The cuffs are gold fabric, and gold buttons highlight areas throughout the uniform. Shiny gold bands are a part of the pant legs. The collar is of fine quality and also of a gold color. On the upper right part of the uniform's torso, there is a mass of medals. Gold cord can be seen on the right and left parts of the torso, even extending down to the pants. This uniform highlighted KaiserABRichter as the righteous leader.

Later on, the lavish uniform would get substituted with a brown double breasted coat. On the upper left is a medal. Underneath the coat is a white shirt, and a black tie. The leader choose to wear this as his new personal outfit as he wanted to match with the uniforms of the Richter Empire's main party, which were colored this shade of brown. The spiked cap is still present.

During the Duchy of Swabia, KaiserABRichter donned the chivalrous robes of the medieval era. The uniform here has a yellow and grey 2x2 checkered pattern, with the colors yellow and grey. KaiserABRichter is wearing a medieval chainmail helmet.

This picture here isn't actually of KaiserABRichter, however the soldier here is wearing a similar uniform. On the front of the uniform and on the right leg there is an emblem of a yellow shield and black marking. On the right leg, there are two yellow crosses.

Occasionally KaiserABRichter donned a slouched hat during campaigns, as seen here on the African front at the time of the Richter Empire. In this picture, KaiserABRichter is also wearing a gold and blue medal.

Another uniform worn by KaiserABRichter during The Richter Empire. The spiked cap is still here, and there is that gold and blue medal once again. The uniform here is similar to the General uniforms of Germany during the 1940s. The collars have red patches. There are four pockets on the torso, and the pant legs have red stripes on the outward sides. Black boots are also worn. Two medals may also be on the right side of the torso, as well as what looks like an eagle insignia on the upper left.

(Uniforms that couldn't be self-confirmed without a doubt that they were worn by ABRichter.  
Looking for a clearer picture of the second one)
