I never thought I'd be making a doc like this, but since this guy has been getting on my last nerve, I have to make this ASAP before all hell breaks loose.

This document is made to salvage evidence on how not to trust TheGiraffeGuy2013.

-Backstory-

TheGiraffeGuy2013, a.k.a. TiernanHopkins, TheGiraffeGuyMakesYTPMVs) is an 18 year old American logo editor, logo remaker and a sketch comedian. On his YouTube, his output mainly consists of logo edits in a similar vein to renowned logo editor **Kyoobur9000** and the likes. Sometimes, he makes sketches and series called "*Theater Guys*" and "*How To Survive Winter School*". Most of the short vertical sketches would go on YouTube Shorts and on Instagram. His DeviantArt mostly has *20th Century Fox* logo remakes - the majority of which are parodies, the type of thing that amateur logo remakes overuse for.

On the surface, he may look like your ordinary happy-go-lucky logo editor who admires the work of Wodienfor (me), Tanzim-Kazi, TrixiRGB, block_618, zeebeethedog and most of all, puzzylpiece, right?

Well, the document should explain otherwise when you look deeper into who Giraffe truly is.

- Obsession with Puz -

puzzylpiece, or puz, for short, is an American logo remaker, font designer, content creator and furry artist in the logo community. Many of his OCs include his fursona, *Puzzyl*, *Austyn*, *Lisa*, *Blendina* (a logo fursona based off *Blender*), etc.

He was infamous for his past actions, but he most likely regrets them and has shown to improve himself.

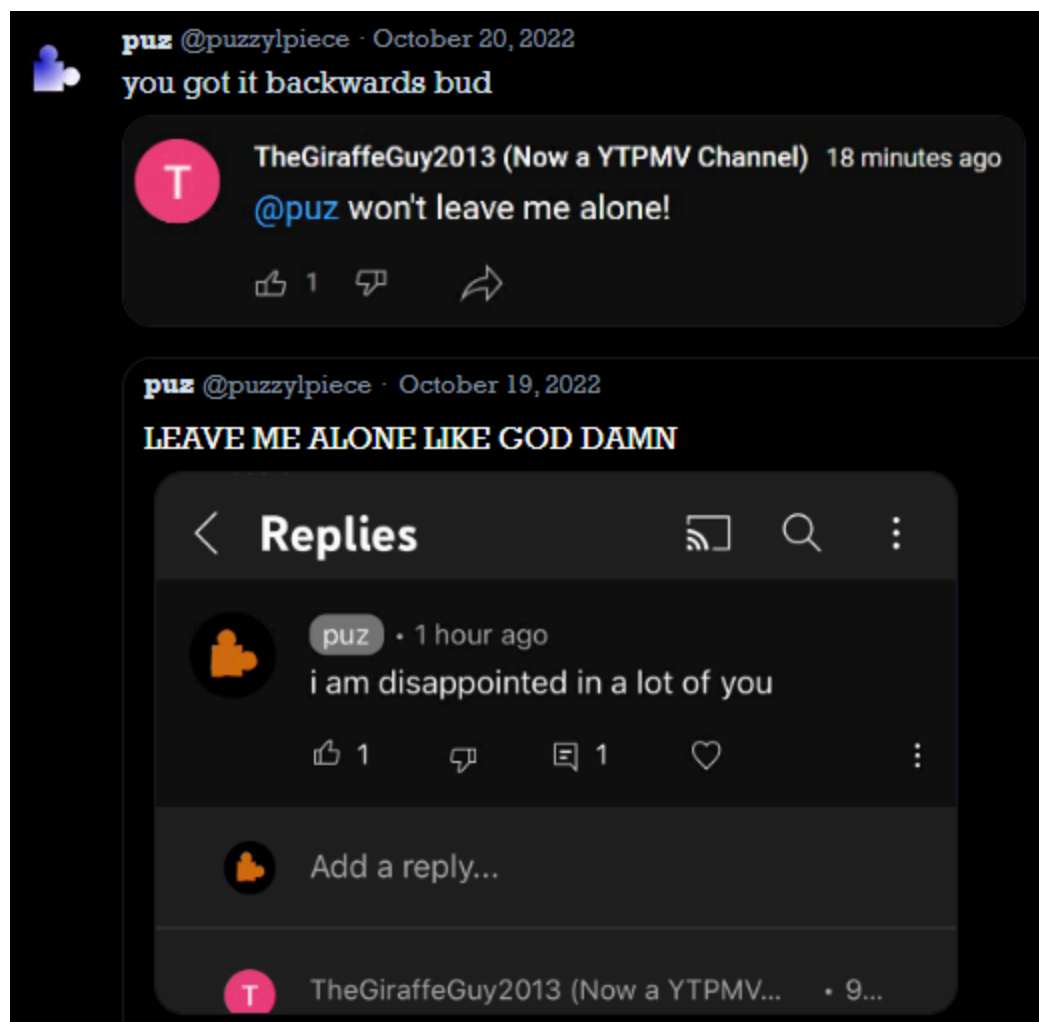

Many of logo remakers tend to have its crazy fans, and puz is unfortunately one of the people who has such fans. Of course, he does have his mutuals that actually care for him as a person.

Giraffe on the other hand, proceeds to go overboard when it comes to being a fan of his. He went out of his way to stalk puz., down to treating him like an actual family member rather than a friend.

Around mid to late Autumn 2022, Giraffe started replying to puz and his cohorts on Twitter.

You'd think he'd reply it a few times, if not once, but you'd be wrong.

Giraffe constantly replied to them to the point where puz himself got annoyed by it. The same thing happened once on YouTube. One of the replies is in response to puz's "true fans will get this" tweet.

Weren't **you** doing the same thing, Giraffe? You wouldn't leave puz alone yourself.

There's being a fan/friend of someone, and there's being an obsessive fanboy of someone. A true fan would not reply to every single tweet/comment/reply, fave-spam and stalk someone. It's already bad enough that he inserted into his sketches that are only funny for a fraction of planck time, but this has gotten out of hand.

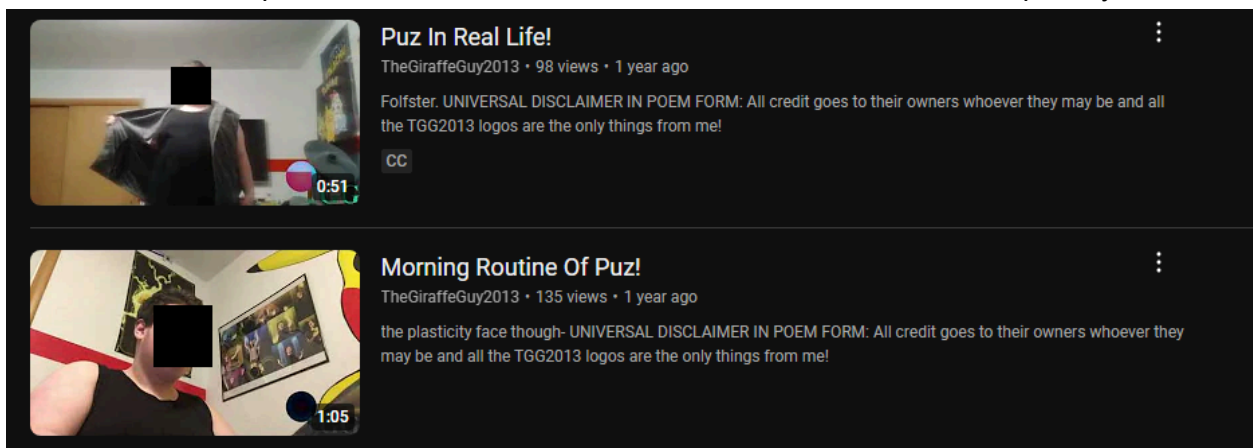

Giraffe falls into the category of a crazed fanboy because of these reasons. Stuff like this does not make you a true friend to puz, and with behaviour like this, including the ones I'll get to later, I don't think he wants to be your friend.

You may be thinking, "well he's a kid, let it go". He was roughly 15/16 at the time. He was born in the same year as puz, afaik.

He or one of the object thingy drones also used his old *RALE* video (i believe) and added some "Preview 2" and logo edit type videos in them,

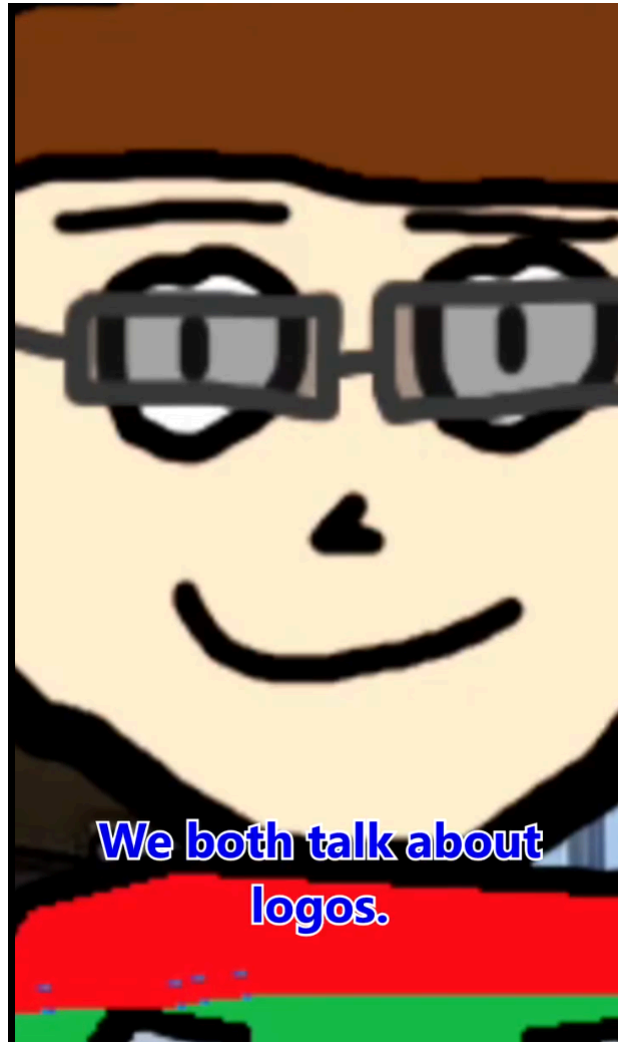

He also tries to pretend to be **Puz** in real life. Real life face is censored for privacy sake.

On one of his reels found on Instagram, he treats puz like he's his "brother".

We both talk about
logos.

Like.. there's being a mutual of a person you like, and there's being a nutcase who idolizes said person and treating them like a family member. This is nothing short of being creepy. If an actual brother of yours is watching you calling puz your "brother" and is looking at you in a funny way, how would you react to that?

.....Thought so.

However, the only time he would get so angry at puz was when he made "Puz Shorts", a series where Puzzyl and Austyn go on failure adve... I mean, where Puzzyl and Austyn find themselves in misadventures and do random shit.

He made this one video titled "Dear Puz" which is essentially Giraffe blaming puz for being a furry and accusing him of stalking, telling puz to leave him alone, even though he's the one to talk.

<https://www.youtube.com/watch?v=mu2dydpam1A>

Because he is? You follow other furry artists too, so are you gonna say the same thing to them?

You're the one to talk.

Because branching out to other video ideas is BAD according to Giraffe.

....You see what I mean?

You're acting like you're puz's dad, mate.

Giraffe's obsession with puz would most likely never stop.

Imagine my shock.

-The “death” of Surrismo -

Sometime in around 2022, Giraffe made this one series called “Theater Guys” where Giraffe and characters from me and other owner’s he stole are working on this Blue’s Clues & You theater.

One the 2nd episode, he decided to distort the lore of one of my OCs. An example being my female OC of mine named *Surrismo Raccoon*, a wacky tomboy who likes to have fun. I may have to write a more detailed lore of her sometime in the future, mayhaps?

More info on my reference sheet to her.

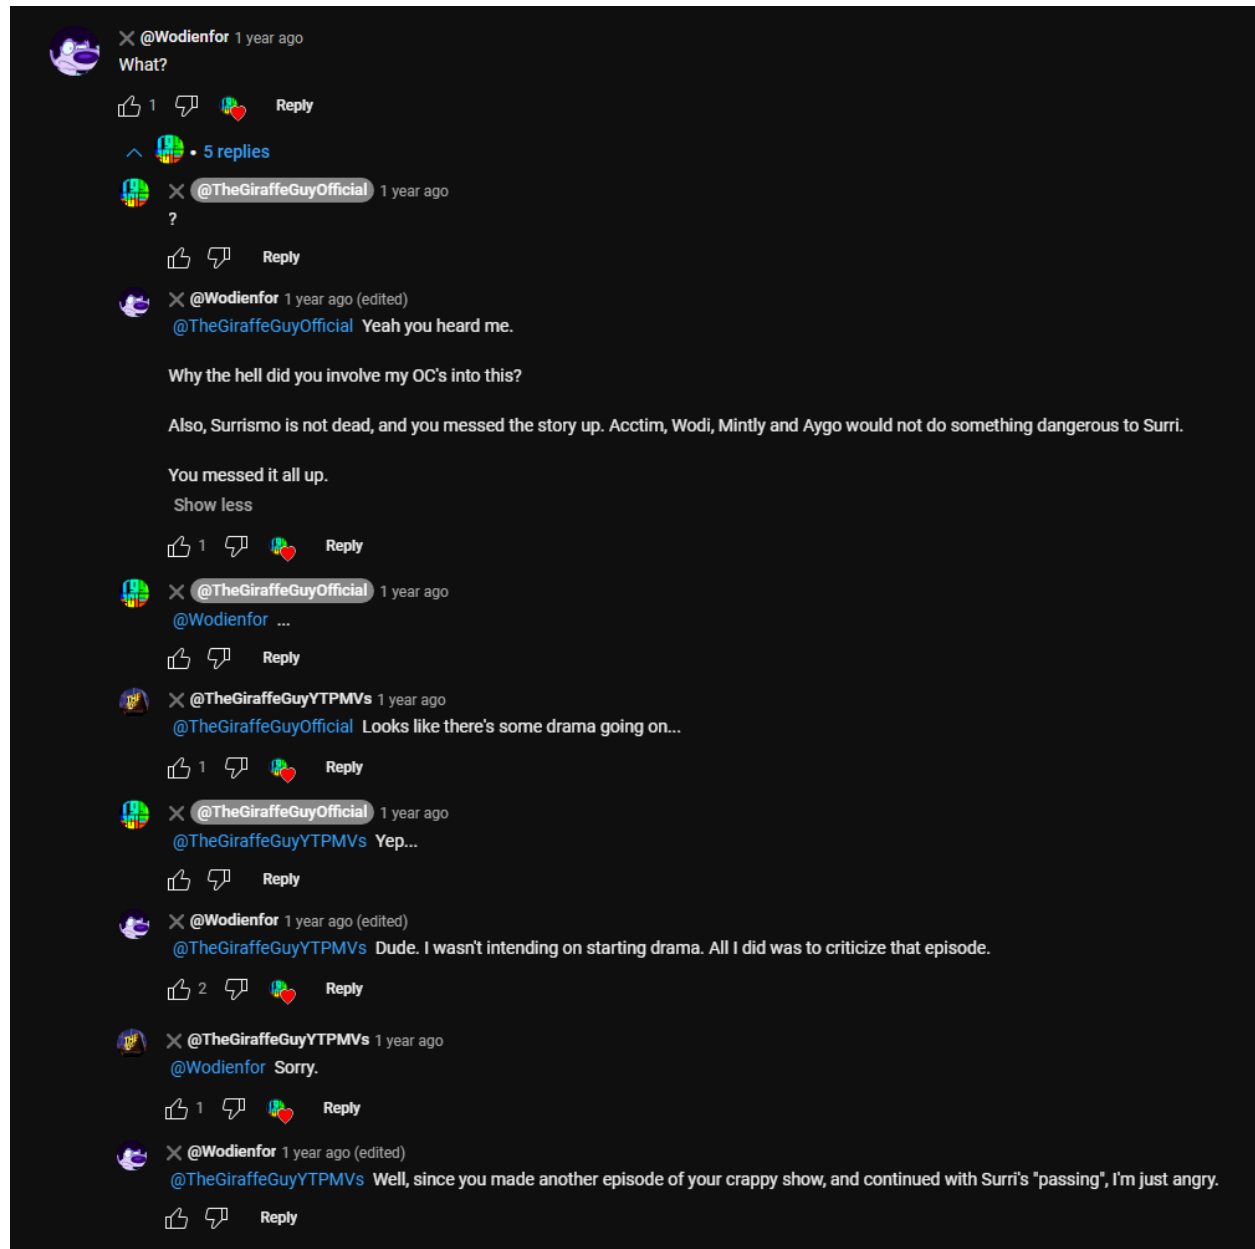

During the run of his “Theater Guys” episode, she was included along with the rest of my OCs, *Mintly* (when he was *Neintii* at the time), *Acctim*, *Wodi* and *Aygo the Clown*.

She was first included (without permission) in the 2nd episode of the show, where her brother *Acctim*, cousin *Mintly*, *Wodi* and *Aygo* supposedly threw her in the air and fell to her death.

Link: [📺 The Moment This Raccoon LEVITATED](#)

That episode pissed me off, quite frankly because Giraffe killed my OC off in his universe. I did take it too seriously at the time, even got to say a big “fuck you” to him, but I was a bit too harsh on him at the time.

For me, I’m keeping her as my OC because I love drawing her, and she’ll still be drawn. I even left a comment on it, and he responded it along with an alt account of his - talking to himself, for some odd reason.

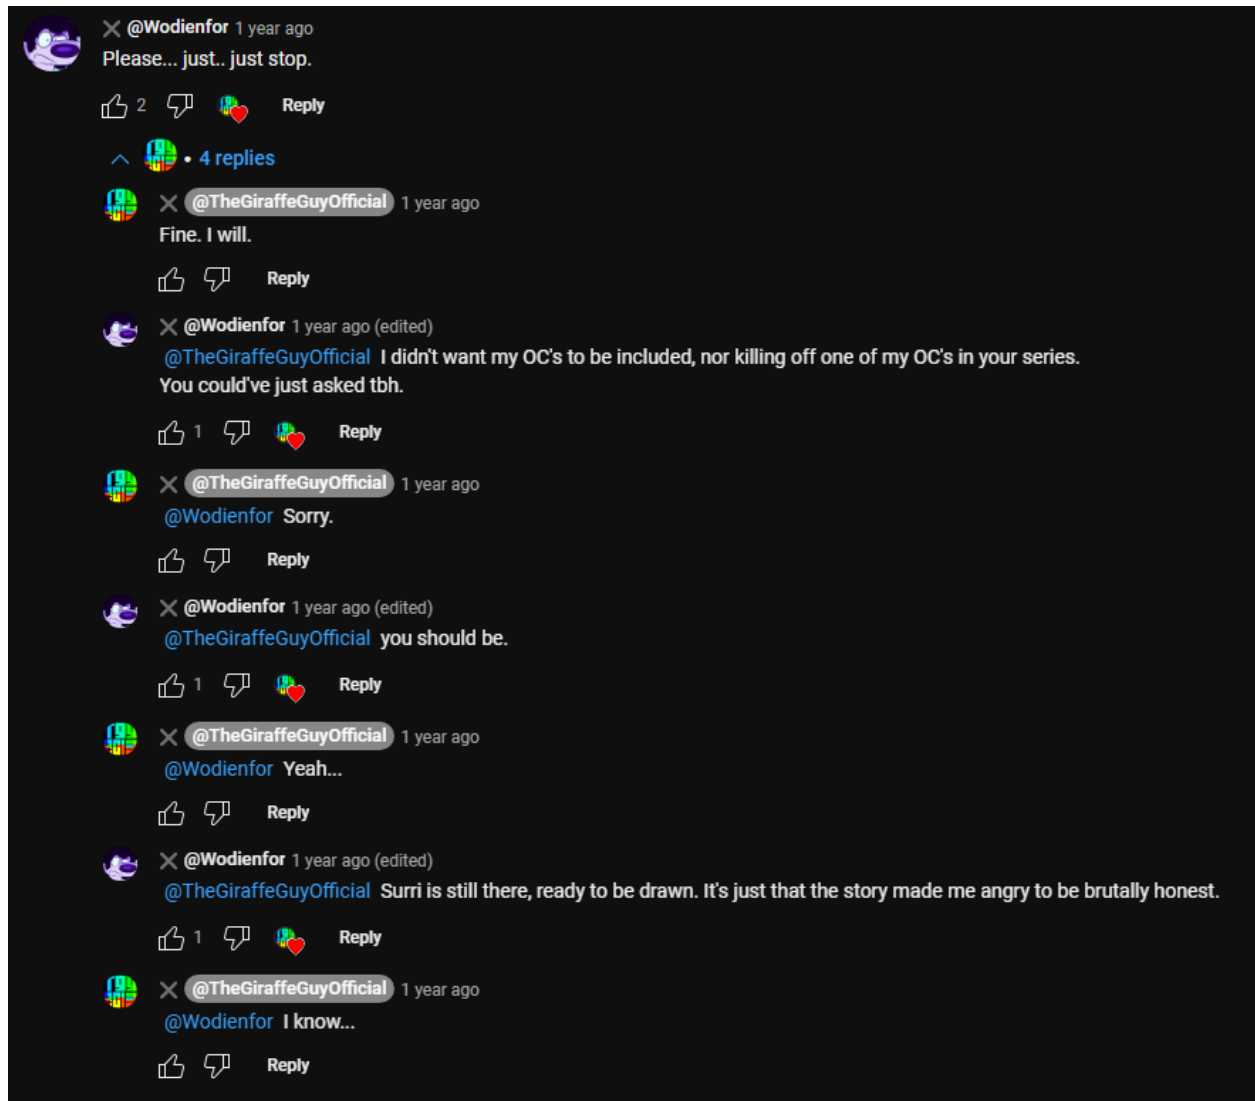

But that’s not all. As mentioned in my last reply on the picture, he continued the “surrismo death story” thing with a tribute to her in the next episode.

Link: <https://www.youtube.com/watch?v=IKFi0AxB9Hg>

Needless to say, I was angry at the time.

Like the last episode, I commented on it.

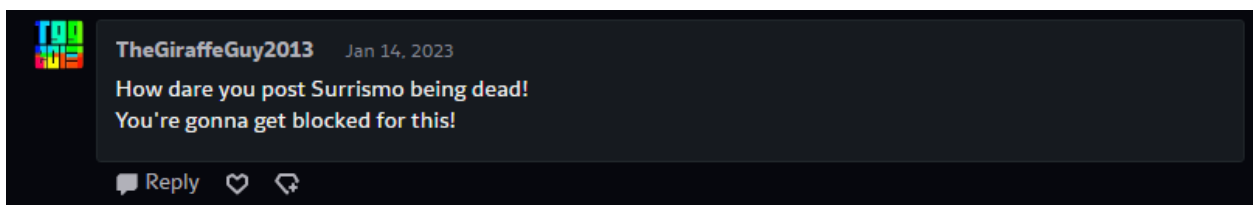

I may have taken it a bit too literally since it's his story and not mine, but I could not get over that because I don't want people thinking I stopped drawing *Surri*. I wasn't directly involved in the story as a script writer. He wrote this behind my back.

During that time, I have made a drawing in response to his 2nd episode of his show, using *Surrismo* herself.

I even announced that he did something about my OCs behind my back, and my friends disapprove of that.

When I posted that pic on DeviantArt at the time, Giraffe responded negatively to my deviation and then blocked me there.

Weren't you doing the same thing?

He posted that under the *TiernanHopkins* name before his current one due to Core Membership.

I mistook that as a different person, but as it turns out, that's Giraffe's real name.

After I told him not to continue with the death story, he most likely stopped.

I was originally backpeddling on being too harsh on the guy because I glanced over the video in question. I did not like to watch bad videos on me for that reason.

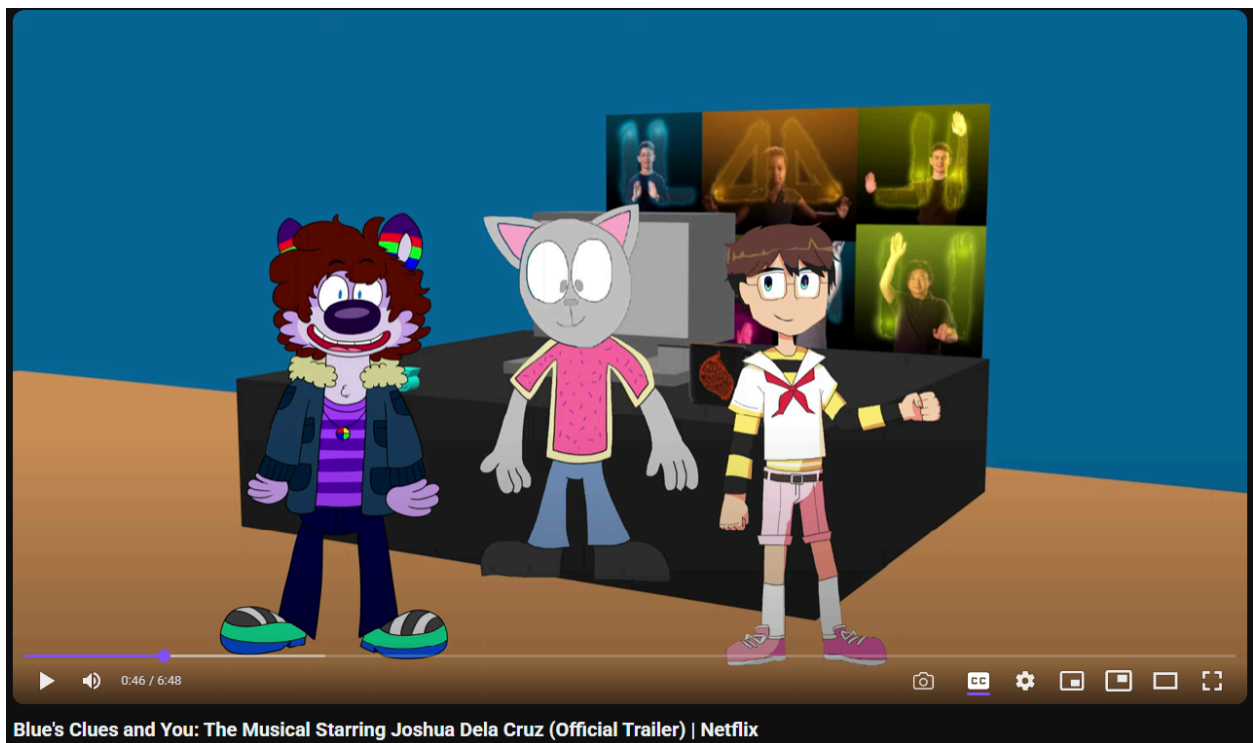

It was until sometime in 2024 when I decided to watch all 3 episodes of the so-called “series” where my OCs are included.
I was fucking livid.

Most of my OCs sound completely out of character and distorts the lore of my OCs included, be it Wodi, Acctim (name soon to be changed), Mintly (who has the former name, Neintii, at the time of that video’s publish.), Aygo the Clown (also soon to have the name refreshed) and of course, Surrismo.

Episode 1 was when I first got featured (undeservedly):

Blue's Clues and You: The Musical Starring Joshua Dela Cruz (Official Trailer) | Netflix

This is clickbait btw, the evidence below says otherwise.

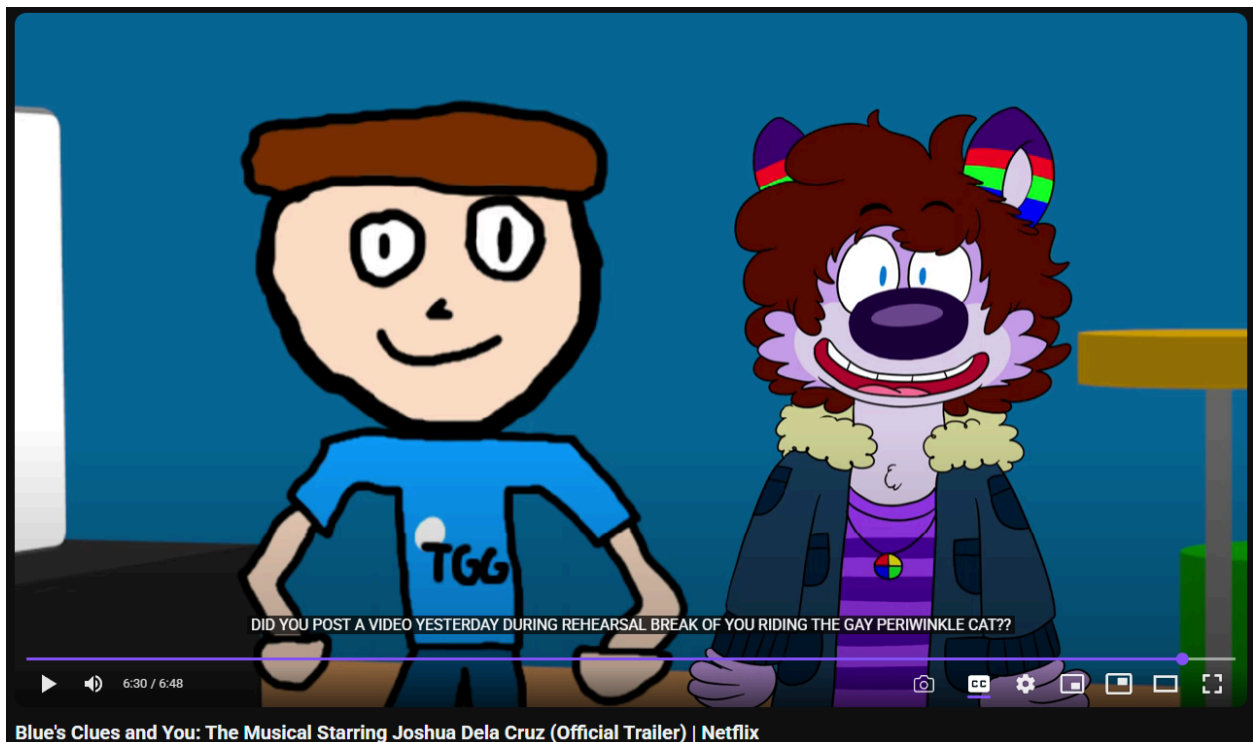

They're apparently "singing" the theme song. It's probably for the best I wasn't in the video considering I prolly would've sucked ass at singing anyways.

Giraffe portrayed Wodi as like a dumbass, “comic relief” sort of character, to which I don't understand since Wodi isn't really like this when I envisioned him. Wodi is based off me and my personality.

Yes, he may be a goofball, but not in that level.

..No I didn't.

What does Wodi say after this?

What piggyback??

At one time, I fell into the ground for whatever stupid reason, and what was my excuse?

What?

The second episode was when it became egregious.

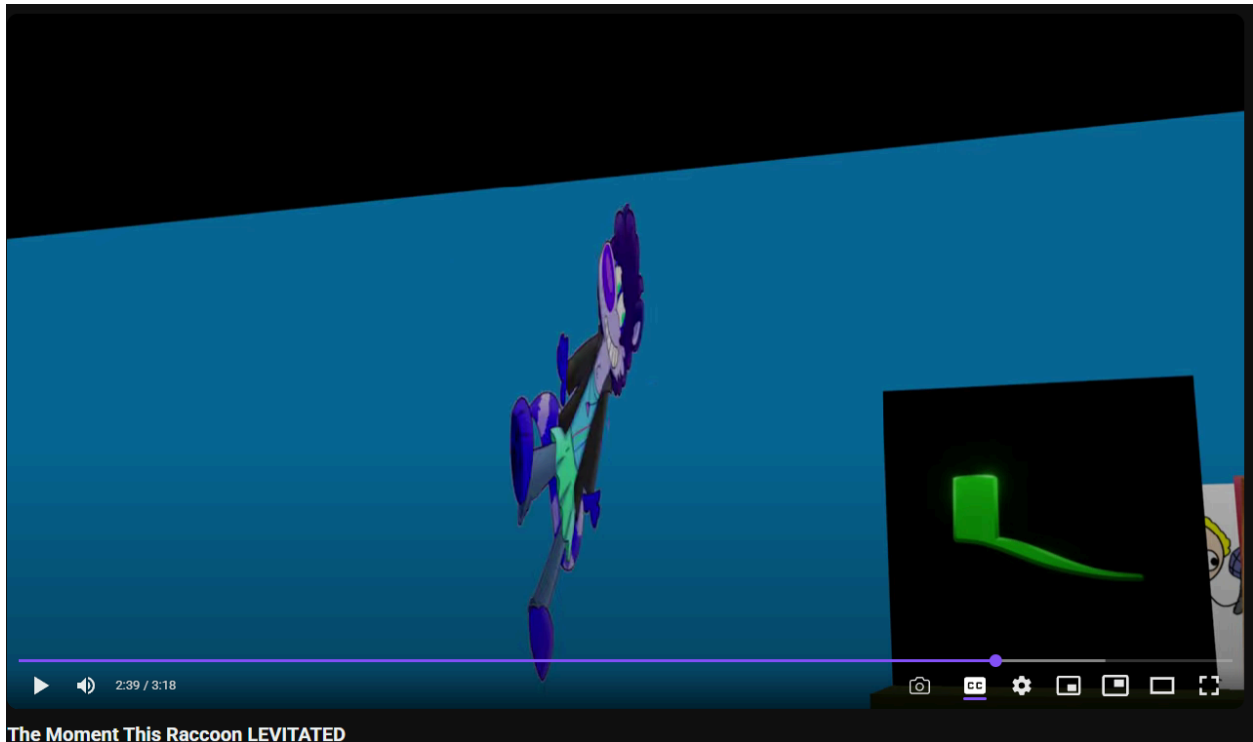

▶ The Moment This Raccoon LEVITATED

Mintly also was portrayed as a dumb character in the episode except he wasn't this dumb either.

Mintly was Surrismo and Acctim's cousin, and he wasn't this dumb. Considering that he's one of Surri's relatives, he and Acctim are able to help her.

The nail in the coffin was when the crew had the "bright idea" to throw Surri up high, resulting into a near-death experience.

Note that she was apparently “levitating” as the video title suggests.

It's bad enough you're treating puz like he's your "brother", now you're treating Surri like he's your "daughter", ignoring that she is the daughter of her family.

Giraffe claimed that Surrismo "passed away".

That was stupid enough, but that segue's onto the third episode here where shit hits the fan.

<https://www.youtube.com/watch?v=IKFi0AxB9Hg>

Surri was recovering, but you know what happened after that?

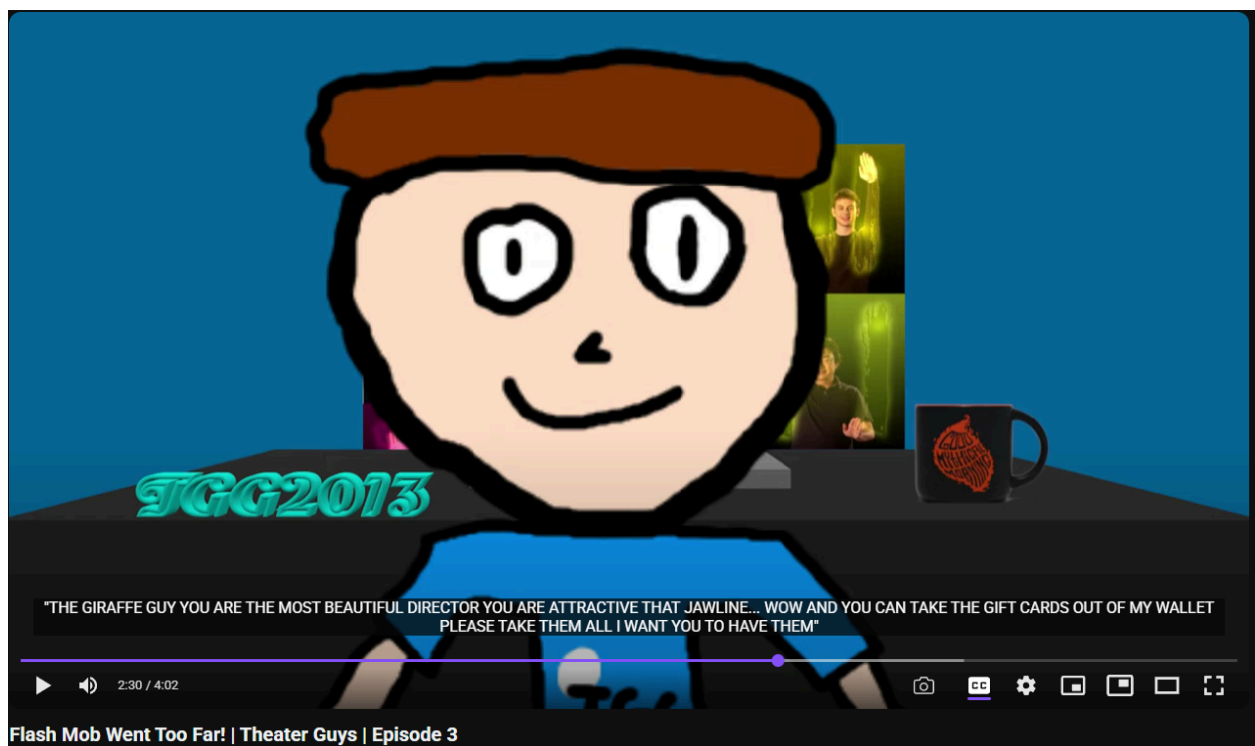

She "died".

And then TheGiraffeGuy decided it would be the bright idea to perform a flash mob in front of his local McDonald's to pay tribute to her.

They then proceed to sing that stupid “We’ll Miss You Surrismo You’re The Best” song during the performance.

This isn’t the worst part, the next one is.

Oh hell fucking no...

If I were to put an alternate ending to the story, it would go like this. (SKIP TO THE NEXT PARAGRAPH IF YOU DON'T WANNA READ THAT)

Wodi and the crew were obligated to be in the theater studio without invitation. They've expressed disinterest but were pressured by Giraffe to do it anyways. Then came Surrismo, who was also forced by Giraffe to go there and witness her older brother Acctim and cousin Mintly along with her friend Wodi. They were chuffed to meet each other and talked about Giraffe's manipulation.

Giraffe would then have the bright idea to throw Surri up and down on a floor. Mintly says "Are you sure that's a good idea? She is my cousin. That would risk an injury or two if I were to do that."

"I don't care. I wanna see Surrismo levitate!" said Giraffe.

"3 2 1, Go".

When Surrismo did the somersault, she then fell, resulting into a minor knee-ache. The crew were surprised. Giraffe isn't. He said "I'm gonna sing a song for you to recover" "And You're gonna hear me ro-"

She closed her eyes in pain once more as she experienced the pain of her knee.

Giraffe claimed she "passed away", but she was still breathing.

Acctim said, "Giraffe, do you honestly think it's a good idea for you to make us do a dangerous stunt on my sister?" "Now look what you did"

Surri said "The floor was so slippery, mate.", "I'm so sorry", said Acctim. Mintly stated to Giraffe "You really are an idiot for doing so." "How the hell could you do that to us?"

Wodi said "Surri... I am so sorry you have to deal with this clown. I hope for the best you recover from this."

Surri replied "I'm sure I will... Goddamnit.." Surri sighs.

Giraffe heard the sigh and claims that she did pass away. He said "her last words are...

GiraffeGuy, you are best sweetest director I've ever had and I will give you all of my gift cards out of my wallet.." "I love you my sweet daughter."

Upon fully recovering, Surri heard the lie and she was furious, smoke emerges from her ears.

She walked up to Giraffe, "Giraffe, you are not the best fucking director, you only make us do the dirty work for you and to make us do this dangerous stunt."

"I was about to have a sweet landing finish, but the floor was so slippery, I almost broke my knee joint!"

"I will never give you my gift cards, nor my money. Now do me and my cousins and friend a favour and pack it in!"

Surrismo then walked off and takes a deep breath to calm down. She apologized for the harsh tone and was forgiven. She asked if they can go to McDonald's and they're interested.

Upon already entering McDonald's for their orders, Giraffe was hidden under the bushes, looking at Surri with his binoculars"

Giraffe then stormed into the window in front of Surrismo and sang the "We'll Miss You Surrismo" song loudly.

***Surri rolled her eyes in disappointment.
He was eventually caught.***

This is just a slap in the face to the lore of my original characters I have developed for years. Now, I know some of you may say “But Wodi, they’re just characters! Why get so worked up about your OCs being killed? Stop whining.” Ordinarily I would’ve bought that since they are characters I drew and the story is entirely made by Giraffe and not me. I would’ve left the video alone as just a silly edit video of Wodi and Co just having fun, if it wasn’t for the fact that, while only in his AU, he distorted the lore of my OCs and tried to kill off one of them against my will.

The rest of the series after that was just his shoehorning of puz’s OCs. Not something to comment on beside his undying obsession with him I already discussed in the last segment.

Now I know why the series was shit from the get-go. This segment was a perfect segue into the next one.

-Shoehorning people’s OCs-

Giraffe has always been inserting people’s OCs without permission or credit from the artist, and when being told to stop, he still does it.

For example, he put mine’s, **puz’s**, **Tanzim Kazi’s**, **Atrox-C’s Sarah N. Dippity**, **Jazzymixel’s** and even OCs based on themselves like **Lyric West** and **Slayercoon**. The latter who isn’t in the logo community.

Here are a couple of examples:

Example 1 - The SpongeBob Musical

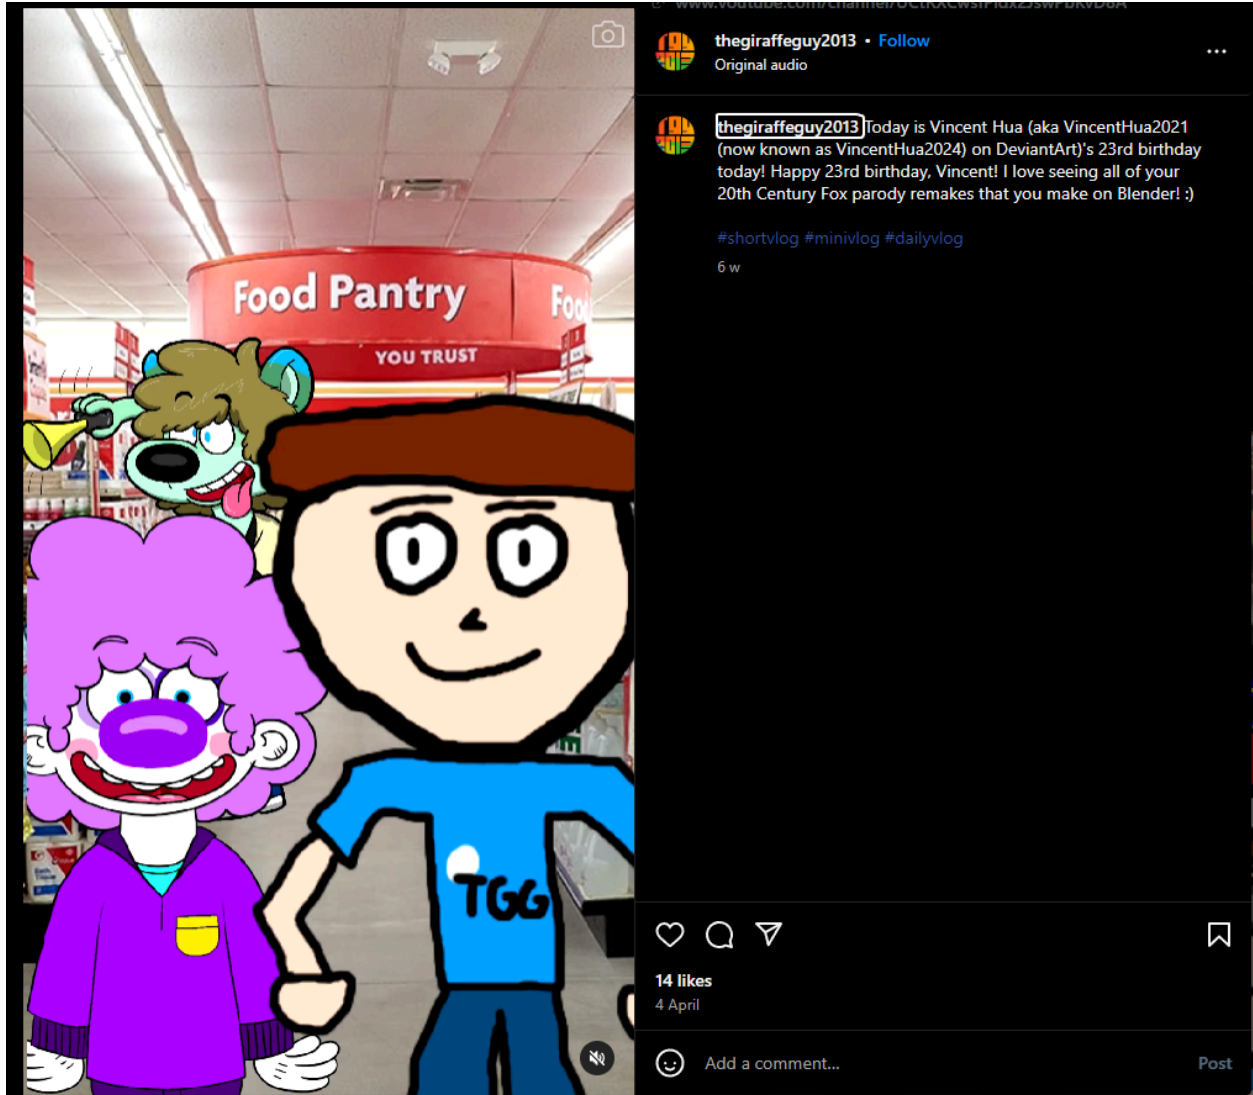

This was made pre-transition with *Austyn*. For some reason, *Mikey* and *Aygo* are separate entities despite *Aygo* being an alter-ego of *Mikey*. *Lyric* on the first screenshot looks like a badly made geometric MS Paint drawing.

Example 2 - Giraffe's Birthday Reel to Vincent Hua on Instagram

It's nice that you're making something special to a certain someone, whether it being someone you like, love, close to you - like a loved one or in a relationship, and you're friends with.

The problem is that there is something that rubs me the wrong way.

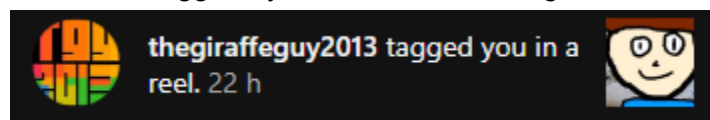

He inserted *Mintly* and *Mikey* (with his 2017 look and his shirt recoloured to make it look like his current look, I guess?) without credit. That birthday gift had nothing to do with me and is better off with just his persona and OCs of his, not mine.

Example 3: Tagging Wodienfor in a minivlog

Don't think I'm against being tagged in general. I welcome people mentioning me for gift art, reply or something important.

I was tagged by Giraffe for a minivlog he did.

He used my aforementioned characters before the Vincent reel. The reel is mostly about him talking about his "time" with *Mintly* and *Mikey*. I removed the tag because...

- a.) I don't wanna be associated with someone who distorted the lore of my OC, *Surrismo*.
- b.) I don't associate with a guy who is toxic to people (we'll get to that one)
- c.) I don't want my OCs to be included in some shit minivlog. And even if he does give me credit, I would still find it boring.

Examples 4 and 5: Musical Theater Malarkey

Giraffe kept inserting **Tanzim's** and **puz's** OCs against their wishes yet again. While he did stop inserting my OCs into his stuff, he continued to do that on my friends. He even continued to shoehorn **Atrox's** aforementioned *Sarah N. Dippity* character.

First off was his take on the musical, "*Sleeping Beauty: Wake Me Up Before You Panto!*"

Thanks to **Tanzim Kazi** for the Instagram screenshot.
 From the picture shown, he inserted puz's transgender character, *Austyn*, pre-transition. Almost looks like he's misgendering her.

And the other one, the *Stranger Things* musical. There are multiple pictures of this. Giraffe did the same thing again, only with more OCs including *Blendina* and *Lisa* (puz)

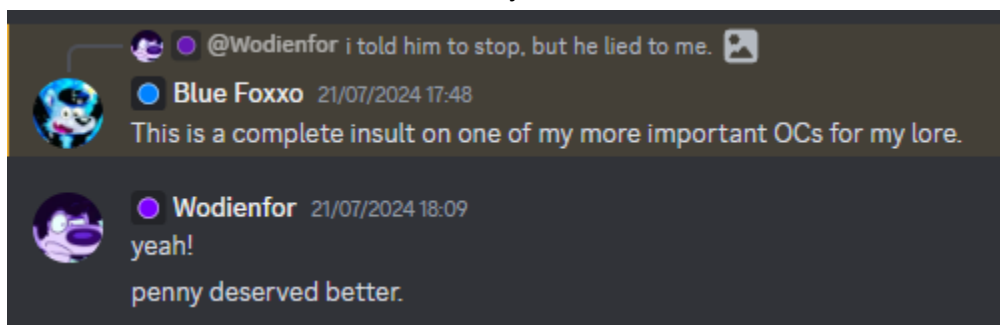

Ofc he recoloured their OCs against their wishes.
 He also recolored Tanzim's Penny and added a moustache to make it look male, when it didn't work out at all. (look at the curves)

This is why you have to ask for permission if they're interested in using their OCs, as long as you give the original artist credit. If they say no, ask for someone else. If they all say no, just leave it as a team of OCs you created.

Most of them are not interested in being in your "shows"

The responses:

Oh, and uh... I don't know if you know this, but there is one guy called TheGiraffeGuy2013, who makes generic logo effects and pretty obsessed with me. He kept using me and Tanzim's OC's and even yours. That would've been made by a kid, but he's currently 17 as of now.

He even made a stupid death hoax of my female OC, Surrismo, supposedly "passing away" when my OC's "flipped her up the air" or sommat. no words.

Slayercoon 21/06/2024 22:02

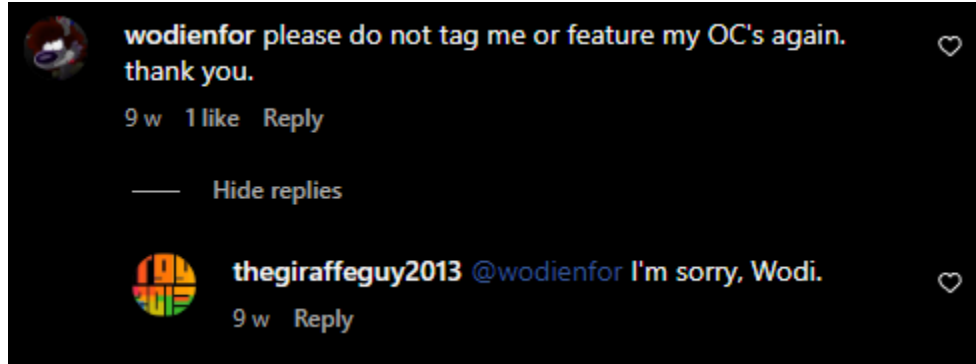

Yeah. Just...weird.

A reminder.... Giraffe is 17 years old as of writing.
They did not ask for it to be on his so-called "theatre".

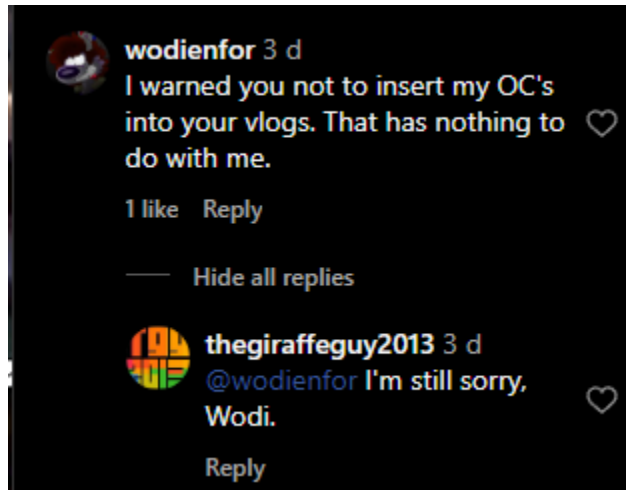

-My responses to his shoeorning-

Even if my OCs were (thankfully) absent on his “upcoming theatres”, or in Giraffe’s case, not being invited, I still have to call him out for using my friends’ OCs without consent, mostly with his *Stranger Things* musical.

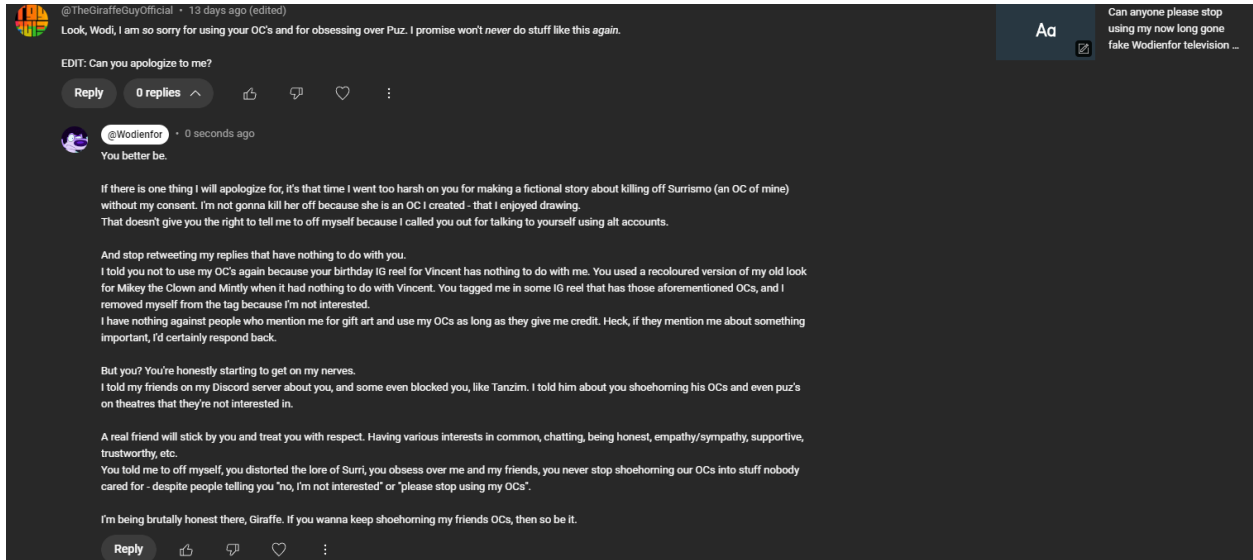

The minivlog reel I got tagged in before I removed the tag:

His birthday reel for **Vincent Hua**:

When he says “sorry” for using my OCs and obsessing over **puz**:

Use the zoom functions on your browser for better resolution.

And finally, when he shoehorned **puz's** and **Tanzim's** OCs again and mentioned his past actions in an honest tone..

I then tried to warn him not to steal our OCs one more time hoping he would stop. He did sent me a friend request on Discord, but I blocked him.

@Wodienfor 0 seconds ago

I see you've sent me a friend request on Discord. I had to block you because of what you've done to me and my friends.

how about you leave Tanzim alone, leave puz alone (ESPECIALLY WITH WHAT YOU'VE DID BEFORE), leave my friends alone, and most importantly...

LEAVE.
ME.
ALONE.

Is that clear!?

and before you jump to that conclusion of saying "oh, you blocked me because Tanzim did it first" I have blocked you on the rest of your socials for a multitude of reasons.

- you are toxic and threaten people to off themselves that don't get your way.
 - you are not funny.
 - you always intent on using other people's characters and insert them into your dumb theatre.
 - YOU TRIED TO DISTORT THE LORE OF ONE OF MY OCs AND TRIED TO K-L OFF HER.
 - you have no original bone in your body.
 - you tried applying logo effects into real life events. (seriously don't do that.)
 - you never listen.
 - you only care about us because we make furry OCs and nothing else.
 - you suck up to us in an attempt to earn our respect.
 - you are a talentless hack.
 - you continuously stalk people like puz even though he wants nothing to do with you.
- and lastly.
- I am never your friend.

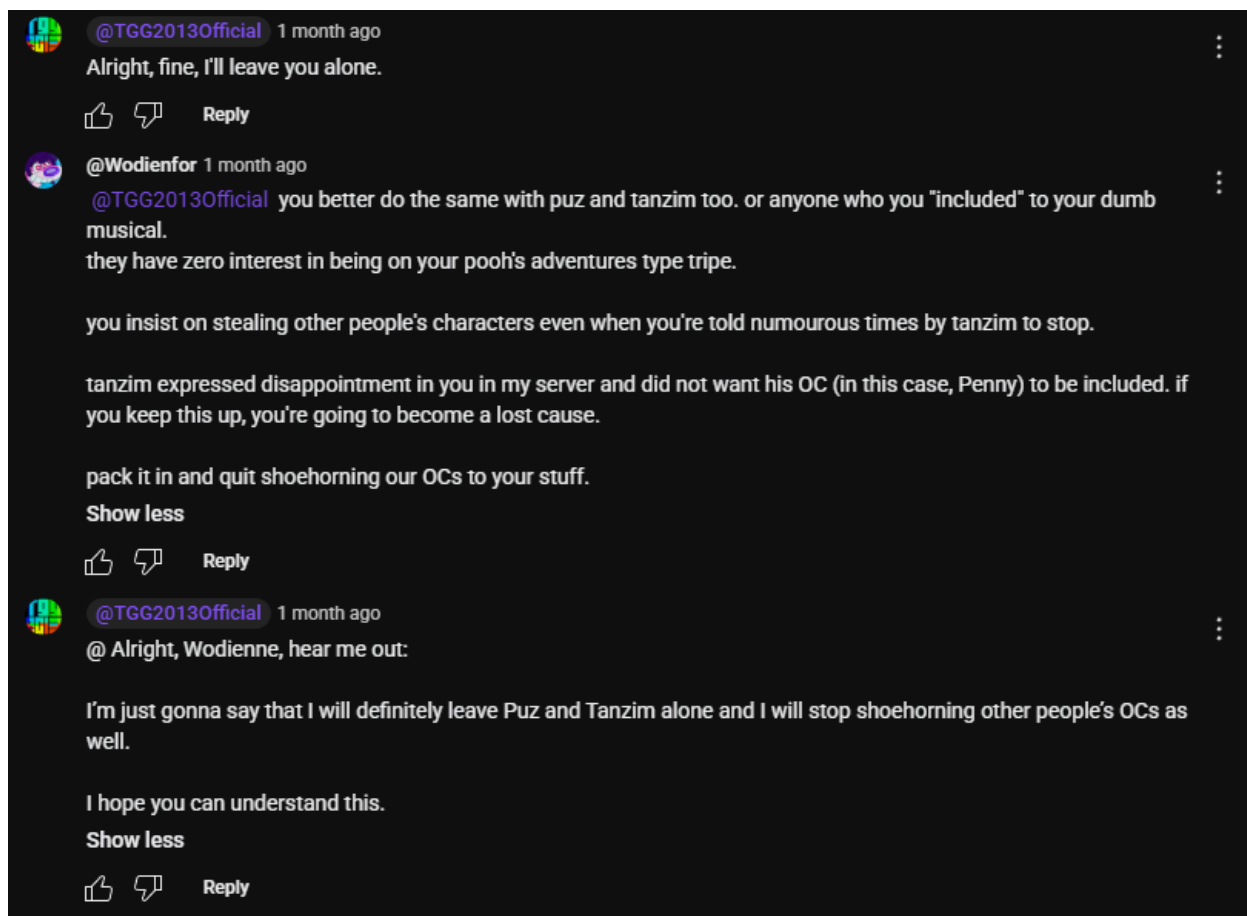

THAT is why I blocked you on almost every social that I'm on.

so please, knock it off, leave us alone, and go pick on someone your own size.

Gotta love how he called me Wodienne here.

And guess what?

He continues to do the same shit he kept promising to stop for.

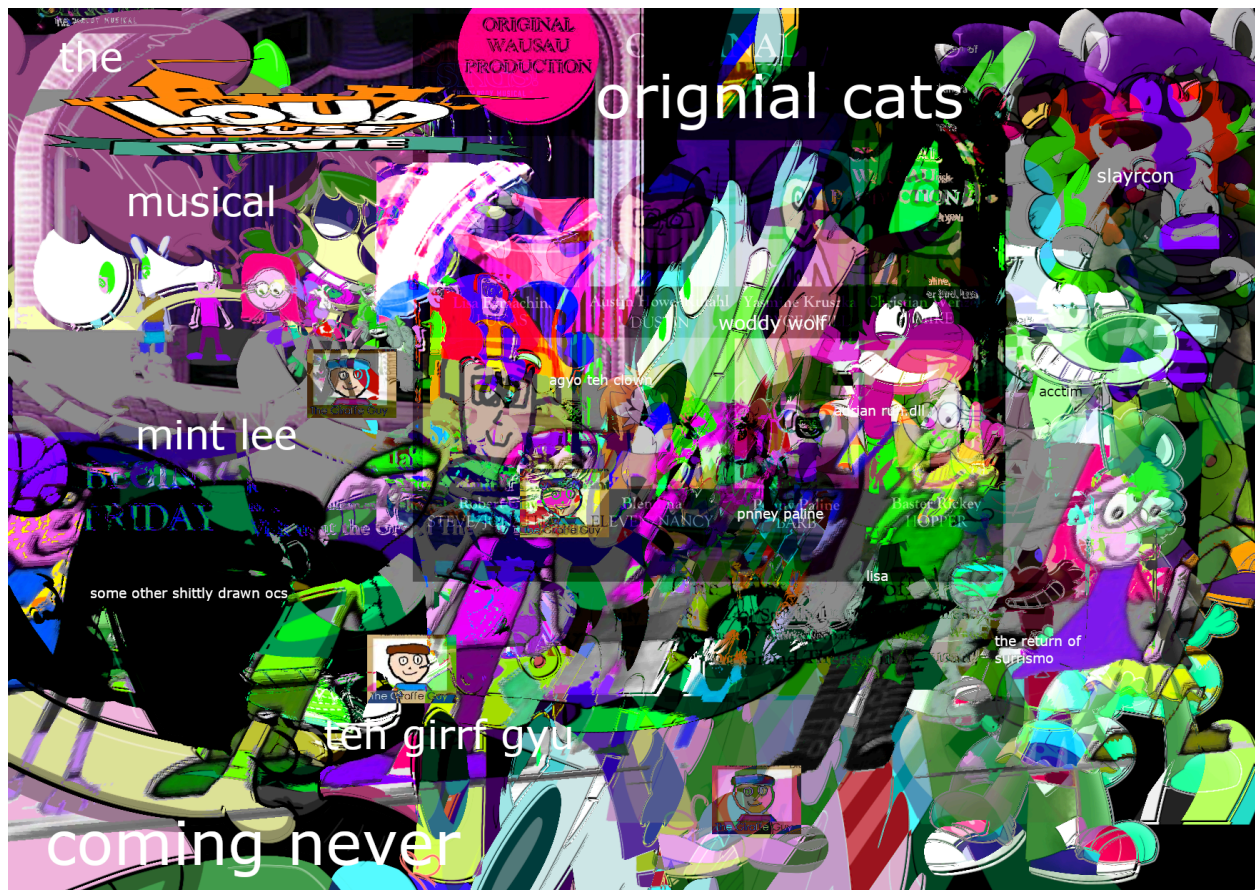

At this point, it has become clear that he would most likely never stop stealing other people's OCs into his silly edits.

The people involved expressed disinterest, and yet he still has to continue this shit.

He doesn't really give a fuck.

Now I know people may say that he's autistic and that excuses the stuff he did. While it is true that autism can influence obsessions (both positive and negative), but this is not really excusable for this, especially with what's been shown in here, before and what's after in the next segment.

I have once made a parody of it during this whole shoehorning phase that would most likely never stop.

Yeah! The Loud House Movie Musical! Join the cast in this Terry Stokes-esque, Funny musical!
Coming soon! Release date of when the musical will come out is **never**.

He can keep doing this all willi-nilly despite people's disinterest.. If they don't want their OCs being included or to distort the lore. **Don't do that.**
If you're being told to stop, then you have to act on it and take it to heart.

But this isn't the last of it...

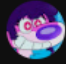

-Other Actions- (TW: Suicide, death, real-life events, mentions of grooming and p3doph1lia and homophobia)

Giraffe has also shown to be a toxic individual to people that doesn't get his way, down to also copying other people's work too.

He either says something racist and threatening people with suicide or death.

Case 1: Toxicity

For context, I announced on the post tab that Giraffe made a bad story of my OCs (as mentioned earlier)

Wodienfor 2 years ago

Someone who goes by the name of TGG2013 has made a series of his own called "Theater Guys", which contains my characters - Wodi, Acctim, Aygo the Clown, Mintly and Surrismo and a recent friend of mine who goes by puz.

Something that's concerning about the series is they TGG built a story arc about Surrismo's supposed passing. In two episodes, not one, two.

The second one was a tribute to Surri, as a funeral.

-

The fact remains is, Surrismo isn't truly dead, nor would my OC's do something dangerous towards Surri. I would not kill her off entirely, nor the rest of my OC's. She is still gonna be drawn.

He basically twists my stories around and makes it look like a depressing ending, which is not what I wanted it to be.

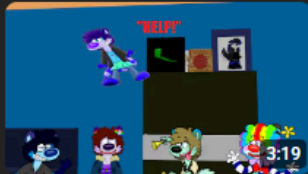

I was harsh before when I saw the episode with the funeral because I was actually pissed at him for that, but it was way over the limit, so I had to tell him to not build a story arc like this or include my fursona, or any of my OC's again, nor obsessing over puz.

-

His obsession with puz is pretty much concerning, since he's one of those logo editors who makes generic logo effect videos on puz's 80's styled logo, and I didn't like it.

All I can say is, I'm not too happy with what he's done with my OC's or puz's fursona. If he's doing this to earn my respect, I'm sorry, but that doesn't work. Not really impressed there.

Wait for it... UNIVERSAL DISCLAIMER IN POEM FORM: All credit goes to their owners whoever they may be and all the TGG2013 logos are the only things from me! Cast: Micha...

Giraffe found that out and commented to me on his old account, and he proceeds to talk to **his own alt**.

This is what he said to me when I called him "weird" for using his alt account to talk to his main account.

Now I may have been too harsh on the guy when I called him “weird”, but what he said after that sounded much worse to the point where it actually pissed me off, quite frankly.

Listen, Giraffe. I have dealt with suicide for the past few years since 2016, and I almost attempted suicide a few times when going through rough times. I have been to therapy in 2021 to help lessen those depressing moments, and I have stopped doing that.

I know the feeling of being depressed, feeling the need of ending your life and saying that nobody cares about you. You are valid. You are loved. I truly understand your pain and hope you can make it through this. You can do everything to overcome depression and kick it in its ass. I believe in you.

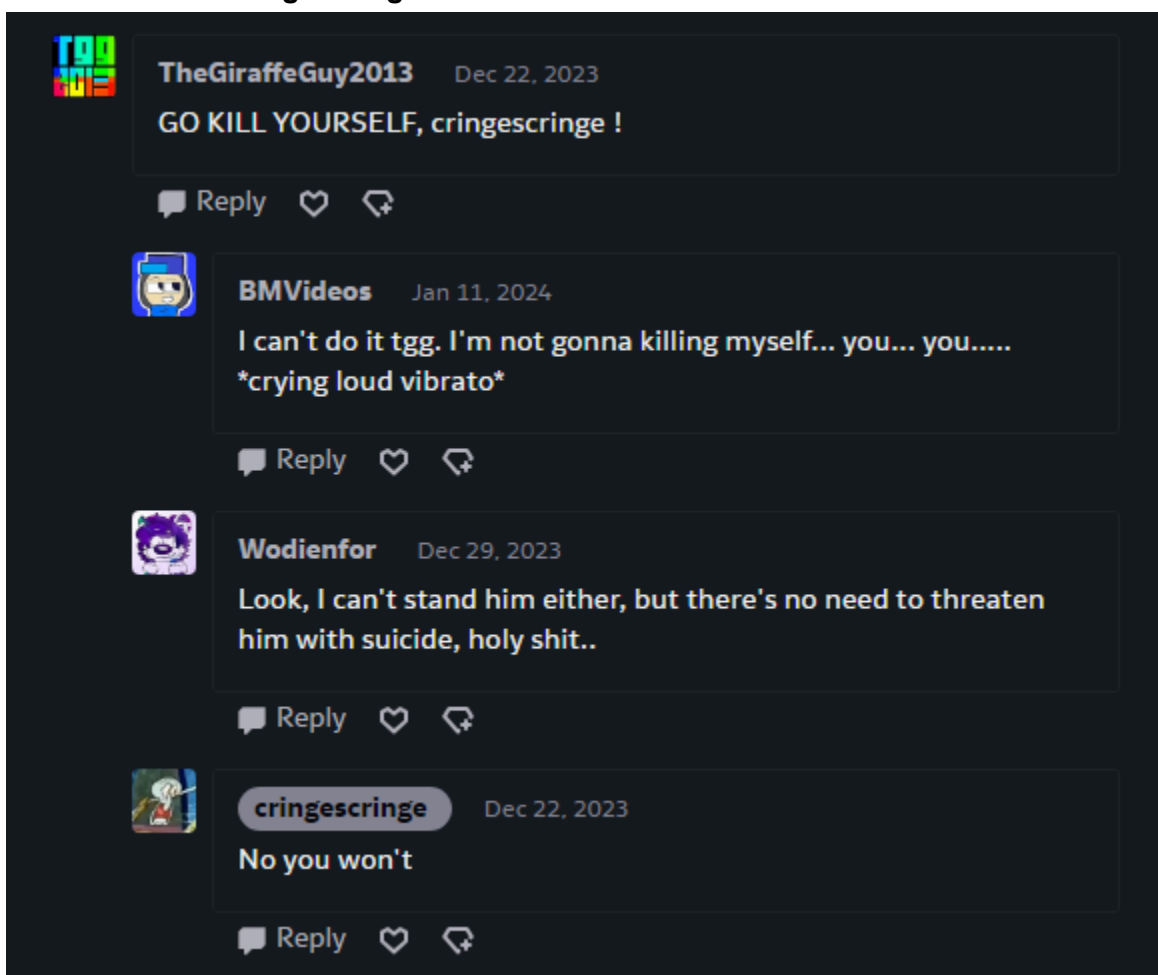

But Giraffe, I have to give you a sincere “fuck you” for threatening my life.

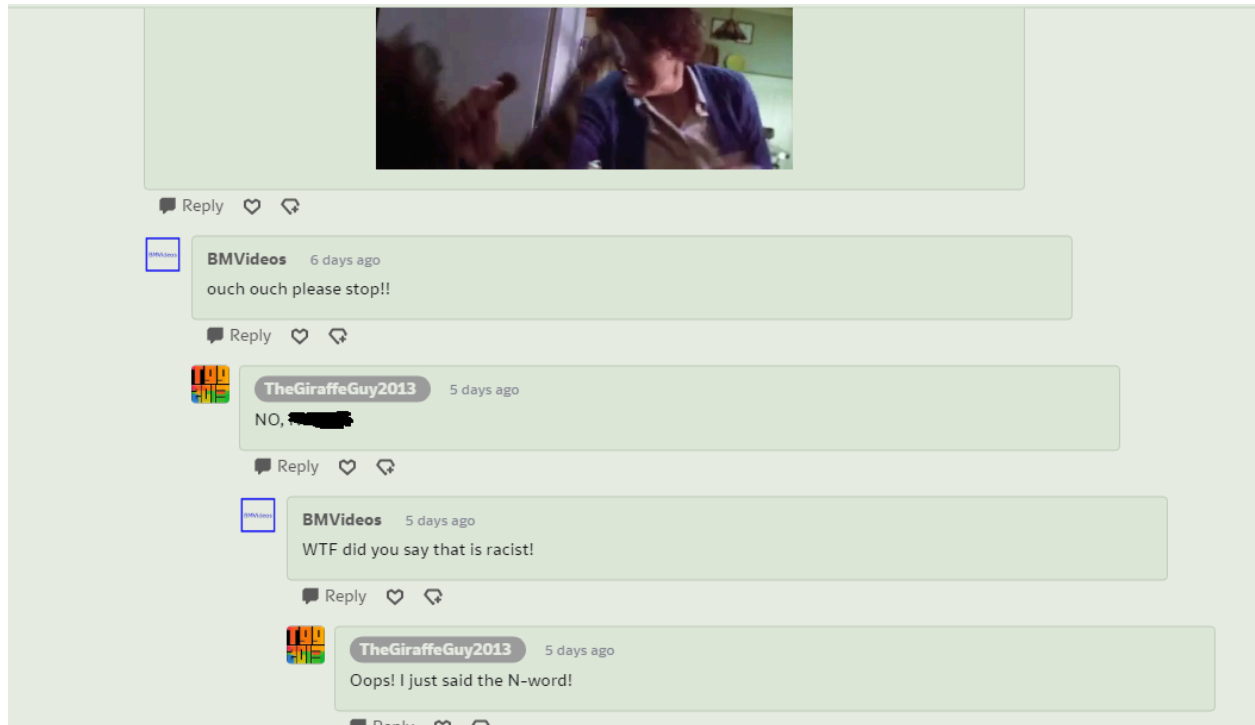

I am not going through that shit again. You're threatening MY life, by telling me to kill myself.
That is very scummy.

He also attacked a person I called out a while ago named **BMVideos/BlueMicrophoneVideos**,
f.k.a. MicrophoneFan08. One that I regret covering after knowing he's 12 at the time. Not
defending him and his obsession with me tho.

For those who missed, **BMVideos** used to stalk me and obsess over my now-disowned
AygoMedia Reacts video from 2013, using my video continuously up until 2024
And now he's into blueberry inflation art.... ew.

Giraffe came in to defend me and this is what he had to say to **Microphone** on his
cringescringe and **BMVideos** accounts on DeviantArt.

Despite it being censored, yes, he did say the N-word to **Microphone**, despite it being white. I couldn't find the full comment chain of this, but basically, Giraffe decided to A-Log **Microphone** despite me telling my viewers and friends to not harass him.

He did say the A, and not the hard R, but it'd look worse for him if he did say the hard R. Keep in mind that BMVideos is from Argentina and is not black, but him saying the N word is still racist.

-

Case 2: Retweeting replies and other stuff

He even retweeted a reply to an old friend of mine on Twitter that had nothing to do with him,

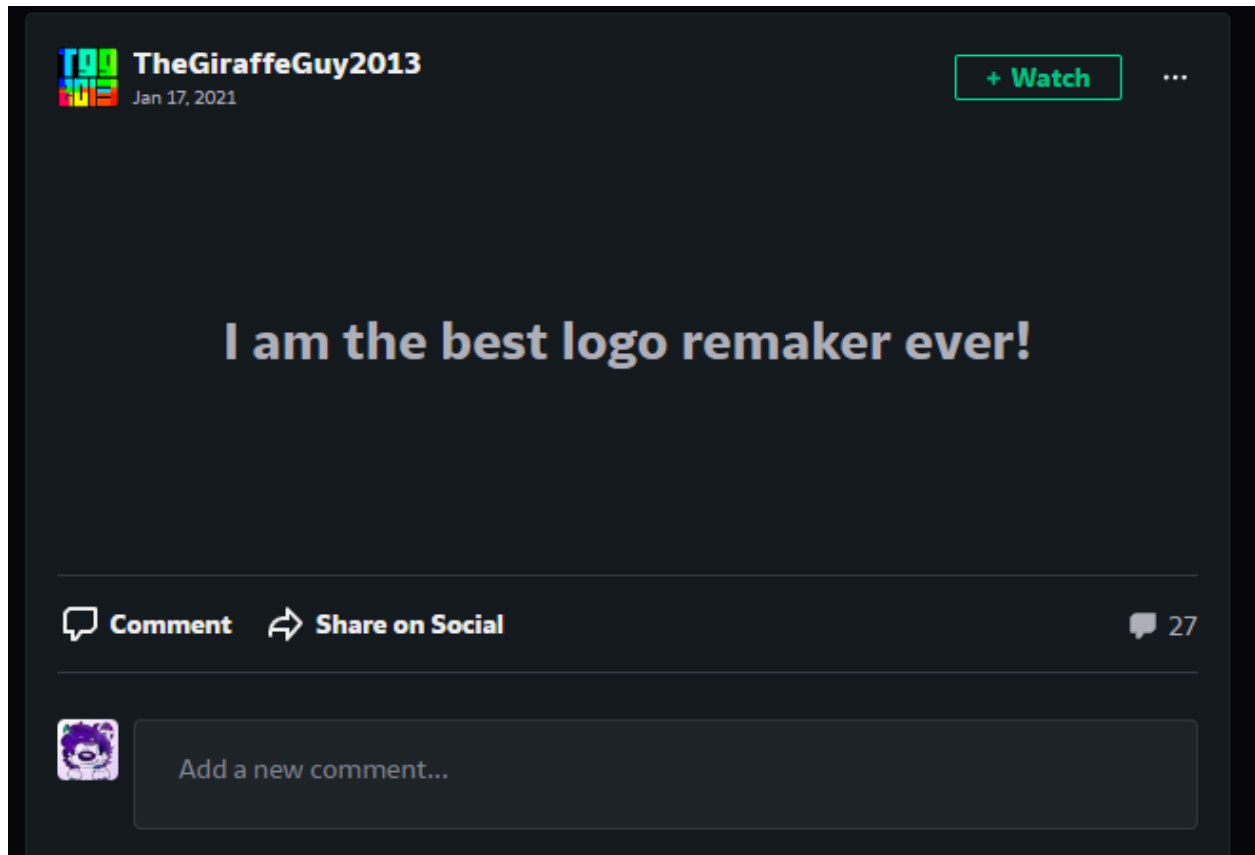

As if it wasn't bad enough, he retweeted one of the replies I wrote to a former friend of mine, LeoTheLionel, who outed themselves after being exposed for grooming a minor.

Keep in mind, this is the only tweet Giraffe retweeted in this chain, not everyone else. I feel like he only retweeted that because "he's Wodi and I'll automatically agree with him". Regardless, what Leo did is legitimately fucked up and he should be held accountable for grooming a minor. He should be outed for such wrongdoing.

He also thinks he's the best logo remaker ever.

In your dreams. **block_618**, **puz**, **Skyler McFadden**, **Antoni Lorenc** and the likes are candidates of such.

-

Case 3: Plagiarism

Giraffe also has zero original bone in his body.

He chose to plagiarize my graphic design work. Twice. Both of these are shameless.

He did that with my 2024 New year's drawing on his 2025 drawing.

TheGiraffeGuy2013 Is Back! 1 month ago

As an early New Year's Day present, I wanna wish you all a Happy New Year in 2025! And I hope this year might be better, but who knows?

Here's the original piece.

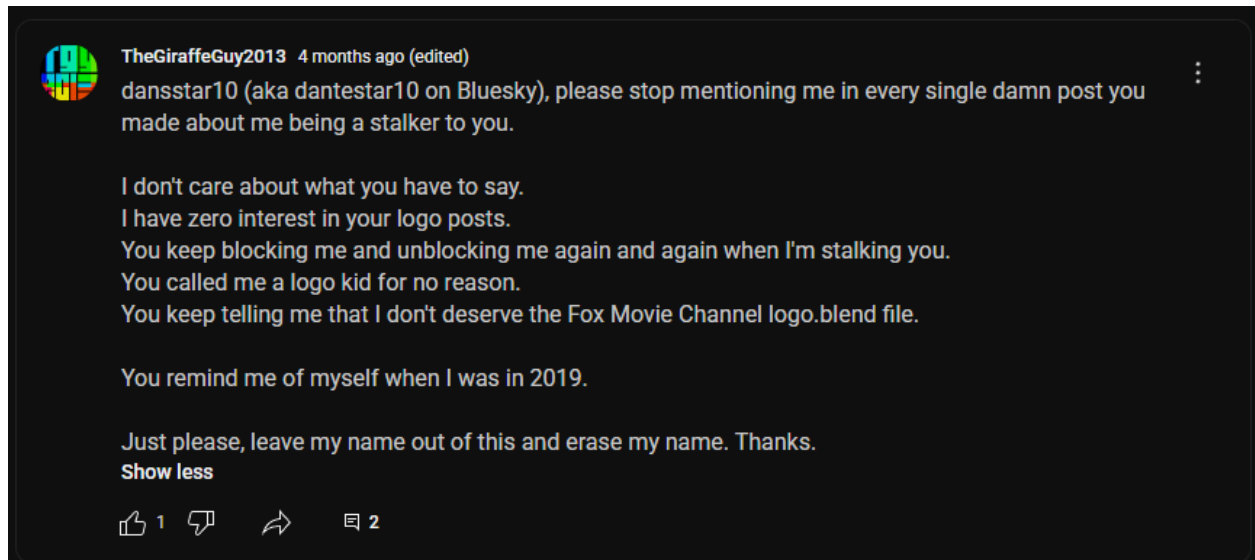

happy nu year

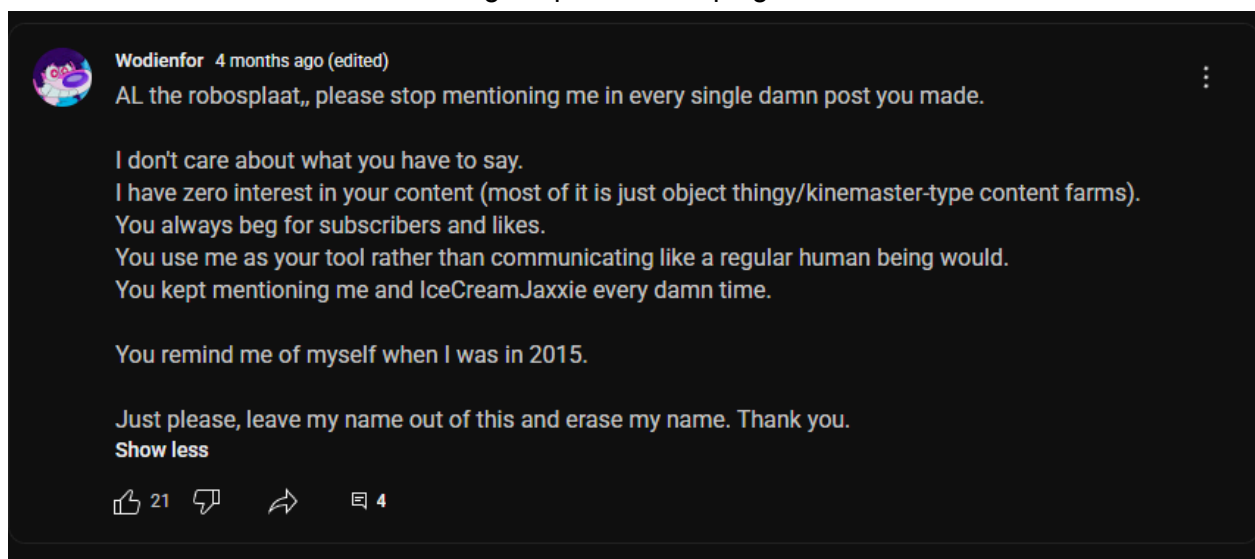

wodienfor

The post Giraffe made on his new channel was taken down after calling him out on his plagiarism, but the images are still their on his DA and other socials.

And this isn't a one time thing, Giraffe also tried to copy my message to AL The British Robosplaat when he constantly mentions me all the time until recently when he stopped.

The original post Giraffe plagiarized.

He also did the same thing with my now-disowned message to sparta remixers and kids who idolized me in the past. The latter I cannot control because kids mostly didn't do anything wrong than to be "cringy".

TheGiraffeGuy2013 @tgg2013official.bsky.social · 1d

Here is a message to all of the logo kids who constantly idolize me.

I'm sorry, but what's done is done. Sorry if I sound harsh in some parts.

Dear Immature Logo Kids Who Constantly Idolize Me.

I would genuinely appreciate if you stopped stealing all of my old deviations from 2019-2022.

I have stated numerous times that I'm not a logo kid anymore, I'm just a logo adult.
The Giraffe Guy is me, myself and I.

I also decided to comment on one of the logo kids who stole my deviations and uploaded them as their own, like Ayden1995 and Nawat2555, because I had rough days commenting on one of their deviations.

Furthermore, I would appreciate it more if you could just move on from logo kids stealing my old and outdated remakes from 2019-2022 and just let it all go.

I do not wish to be known for these deviations I have disowned.

If this is the type of shit I'm gonna be known for, I don't know if I wanna keep my old deviations from 2019-2022. I'd end up deleting my deviations from 2019-2022 if this keeps going.

I would appreciate it if you just let it go already and move on. I have outgrown these types of deviations. I had more fun doing what I love doing.

These deviations and old logo remake models of mine from 2019-2022 are old. It's time to move on.

Lastly, to anyone mentioning my old "20th Century FOX 1994-2010 Remake v3" deviation, stop.

You are only doing that so you can use my old outdated model from July 2019 and use it for this old stuff. I do still think that unrealistic remakes are getting way out of hand, and it's fine to make unrealistic logo remakes. But, try to do your own best at making realistic logo remakes, not unrealistic logo remakes. I'm not saying "You shouldn't agree with me at all". But, agreeing with someone because you idolize and you'll automatically agree with them rather than forming your experience on making unrealistic logo remakes is not right.

I am sick to death of being idolized. I treat my Blender logo remaking friends with actual respect the more I get to know them. I know the feeling of being idolized. I have a life. I'm finding my true self. I'm not an immature logo kid anymore. I have grown.

I do not wish to be only known for stuff I am not proud of.
Let me do what I love to do instead of using me as a tool.

To my actual friends and followers, I want to thank you for the support and appreciating what I do.

Thank you.

dear sparta remixers (who uses my wodi tv video and people who constantly idolize me. [message]

[not my mutuals, don't worry. y'all are good.]
[read this before jumping to conclusions.]

i'm sorry, but what's done is done. sorry if I sound harsh in some parts.

dear sparta remixers and people who constantly idolize me.

I would genuinely appreciate if you let the "corporate" part of my presence go.

I have stated numerous times - including in my object thingy message - that wodiennfor is not a company anymore. wodiennfor is me, myself and I, an ordinary (albeit weird) bloke, striving to create for the sake of my enjoyment, art for art's sake.

I've already gone on record on my decision to drop the "company" part of my name out, and I intend to stay it that way. that's why I plan on ditching the rectle and the wodiennfor wordmark in favour of the WDN4 wordmark.

what made me rebrand myself is that I want to go in the different direction, to a more personal kind of branding, as I've mentioned, wodiennfor is a personal channel of mine. if you don't like this new direction and wanted the "Wodiennfor Company" schtick back, sorry, it's not coming back.

I also decided to scrap the "three colours a crowd" series to make way for a more personal one, featuring the same characters, with better lore. plus, I don't think it would be best to make a full-on animated series of it, not only would it be time consuming, but I'd end up running out of ideas quickly and have a fanbase similar to the "doodle toons" kind.

-

furthermore, I would appreciate it more if you could just move on from the "Wodiennfor Television Has A Sparta Remix" bullshit and just let it all go.

I do not wish to be known for that one video I have disowned.

I did say one of my abovementioned object thingy message videos that I will allow that, but, seeing as how people still insist on remixing the damn video - even though it is left private for a couple of years time, now it has gotten over the edge, not helping matters as one sparta remixer is planning to re-upload my disowned video against my wishes.

it's exactly why I made a vent/prank video about this (unfortunately) ongoing bandwagon in somewhere between October/November 2024. this bandwagon has driven me to insanity and not letting me do what I love doing.

if this is the type of shit I'm gonna be known for, I don't know if I wanna keep this "wodiennfor" stuff. I'd end up rebranding if this keeps going.

I would appreciate it if you just let it go already and move on. I have outgrown these types of videos. I had more fun doing what I love doing.

Wodiennfor Television does not exist, it's time to move on.

-

lastly, to the deviantart users who mention my "hate art will not solve anything" deviation, stop.

you are only doing that so you can parrot my opinions and use it for random hate artists. I do still think that hate art is a waste of time, and it's fine to agree with someone, but, try to form your own judgement. I'm not saying "you shouldn't agree with me at all", but agreeing with someone because you idolize and you'll automatically agree with them rather than forming your experience and opinions is not right.

-

I am sick to death of being idolized. I treat my mutuals with actual respect the more I get to know them. I know the feeling of being idolized. I have a life. I'm finding my true self. I ditched my "company" side of myself. I came out as genderfluid/pansexual. I have grown.

I do not wish to be only known for stuff I am not proud of.
let me do what I love to do instead of using me as a tool.

-

to my actual friends and followers,, I humbly thank you for the support and appreciating what I do.

thank you.

WDN4

I no longer stand by my message on these people. I've been told that a better way of dealing with them is to just ignore them and accept the fact that they're mostly kids who aren't ready for social media yet.

Also, “logo adult”? I had a bad feeling this could end up in a similar situation as the “Good user” and “Mature User” phase that sparked in 2016/17 from user group adjacent communities.

-

I called him out on his plagiarism, both YouTube and bsky.

I tried not to be too harsh on him, but he has been pushing my buttons to where I couldn't take it.

But guess what? After he made an empty promise to stop plagiarising me, he literally did this.

Ofc he plagiarised my bsky post, literally criticizing HIS plagiarising my now-disowned post. Isn't that ironic on how he accused someone of plagiarism, yet he plagiarised MY post criticizing him doing the same thing to my posts?

He literally has no originality, as if the Kyoobur9000 styled logo on his icon is any indication.

Then I criticized him for plagiarism again in a lengthy thread on bsky.

Mati Why Block?

by ViniciusLuciano2008 + Watch

Published: Yesterday

Not to mention, people have blocked you before you even joined DeviantArt and even joined Bluesky in 2024 last year.

I don't forgive you for that shit, even after I blocked you this whole motherfucking time, and overly obsessing over @ValeTheKid despite him not trusting you.

He did it once more, albeit with more vulgarity.

Because of his constant plagiarism, I had no choice but to privatize my bluesky account to logged-in users only until he gets through his thick skull to stop copying what I said.

I also fear that he might copy my graphic design and illustrative artwork again, as shown earlier.
He really wanted to be **THE** next Wodienfor so badly.

My senses are telling me he most likely went on Incognito Mode and go to my Bluesky, using my posts as a BIG reference and type the exact same words I said, verbatim. With the users and scenarios I mentioned being replaced with his friends and enemies and different scenarios.

That's just pathetic.

I ain't siding with either Giraffe or Vinicius in this scenario. I wasn't directly involved with the drama.

The plagiarism never stops sadly, as he went out of his way to copy my exact response to him when he sent me a friend request on Discord.

TheGiraffeGuy2013ALT Edited May 23, 2025

I see you've watched me on my main DeviantArt account since you even joined DeviantArt. I had to block you because of what you've done to me and my friends.

How about you leave [@UrRandomRemaker](#) alone, leave [@simmonsshareef22](#) alone, leave my friends alone, and most importantly...

LEAVE. ME. ALONE.

Is that clear?!?!

And before you jump to that conclusion just by saying "Oh, you've blocked me because [@UrRandomRemaker](#) did it first.", I had to block you on my main DeviantArt account for a multitude of reasons.

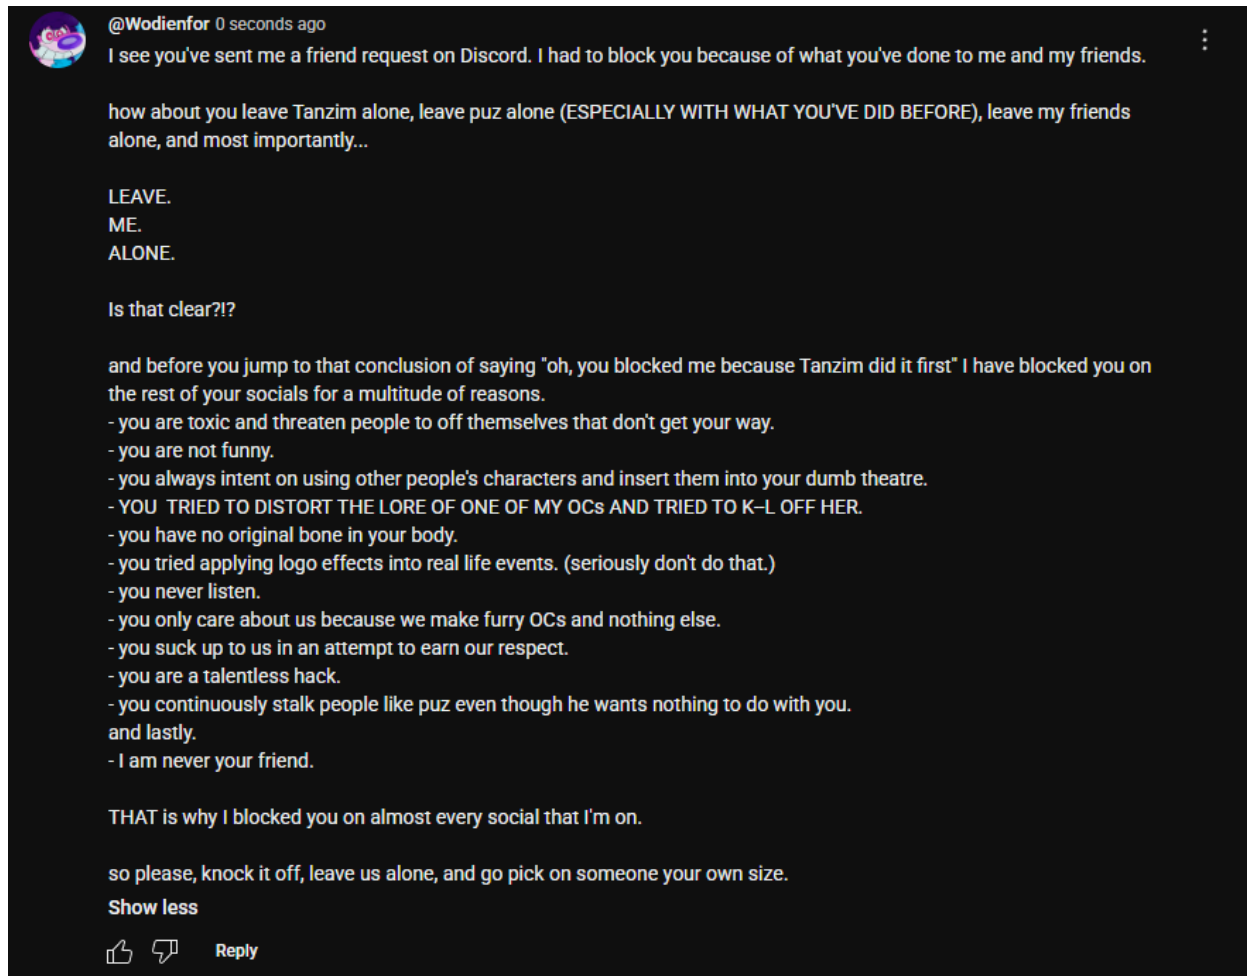

1. You are a toxic, immature logo kid that likes to mention deviations for no damn reason.
2. You are not funny.
3. You always like to steal Panzoid models from [@20thCenturyFoxRoblox](#) and others.
4. You have no original bone in your body.
5. You made AI-generated "art" (Seriously, don't do that).
6. You are a talentless hack.
7. You continuously stalk people like [@simmonsshareef22](#) even though he blocked you for a reason.
8. And lastly: I am never your friend.

That is why I blocked you on my main DeviantArt account.

So please, knock it off, leave us alone, and go pick on someone your own size.

Please note that I ain't siding with that Astra1982 guy on Bluesky that I got attacked, but these users attacking me is getting ridiculous.

I am siding with astra on this one because I am a friend of his. He ain't doing this because I "manipulated" him or my friends to do it, we have talked about you and the damning evidence in this here document and/or on discord.

Astra blocked you for a **reason**. What he said towards you is not him "attacking" you. He told you to leave me and puz alone so that could get that through your thick skull and act on it.

Astra saw the evidence I showed him and my friends on a group chat on Discord. The disgust and disappointment is real.

He also mentioned my name (and **PUZZYLPiece** OF ALL PEOPLE) despite my huge disdain towards him for his actions. Leave puz's and my name out of this. I am not your friend, I will never be your friend. Why don't you just shut the fuck up and leave us alone, you festering nuisance?

I know you might say "Well it's Astra's fault for attacking me!!", all Astra told you was to leave the both of us alone. How about you man up and take his advice.

Puz will never be your friend also for the same reason.

Even if you did delete the message of you doxxing someone's phone number, you cannot escape from the evidence. More and more people will cut ties with you the more you keep fucking up, especially with what's been shown below.

I have to defend Astra1982 from this considering that he's likely going to put up a smear campaign against him. Such act could lead to more of his cronies witchhunting and relentlessly attacking him for calling him out on his bullshit.

He is my friend, and I am not putting up with your petty ass about him.

He did the same thing to another person via a tumblr post.

-The Final Nail in the Coffin-

These last few string of evidence I'm about to show you is where my blood really starts to boil.

On 17th August, 2024, Giraffe had sent me and my friend Tanzim these two comments on DA that actually pissed me off.

Be warned that this contains mentions of suicide, homophobia, use of ableist slurs and death.

For context, both me and Tanzim were legit sick and tired of Giraffe's constant following me and Tanzim, so we both decided to block him on our social media accounts we're active on.

He said this threatening message on my alternate DeviantArt account

He snapped at us and decided to attack us in retaliation, **ESPECIALLY ME** for blocking him on his socials and accuses us of being heterophobic. He sent me this on my alternate DA account. He also told me to fucking end my life and drop dead and called me an F slur.

And he called **ME** "toxic"??

Giraffe, with all sincerity, how about you piss off?

First off; As I've stated earlier, I have gone through suicidal thoughts in the past and **I AM NOT** going through this again. You **WANT** me to commit suicide? That *totally* makes you a nice person! Fuck off.

The moment you told me to end my life and drop dead just goes to show how much of a cold-blooded monster you are, and I'm not gonna let that shit slide.

Secondly; How am I heterophobic? I am pansexual and the LGBT+ community isn't a threat like you think it is. If anything, by you calling me and Tanzim the F slur, you are homophobic yourself.

Thirdly; The only toxic person around here is you. You have told me to kill myself for calling you out, and you're doing the same thing all because we blocked you.

And lastly; I did not block you because "Oh, Tanzim's doing that thing so I'm gonna do it to blindly follow him".

I ain't doing that to impress Tanzim, nor did he do such thing to impress me in response.

No, we blocked you because you are a fucking nuisance to me and you wouldn't take "no" for an answer, as proven in your shoehorning phase from earlier. In addition to that, the toxicity and the very bad attitude coming from you, as well as other shit you did against my wishes.

THAT'S why I blocked you.

Tanzim isn't doing the same thing because "he's doing the same thing in order to impress me", I have discussed with him about you and even brought attention to my server about your actions.

In the past, I showed a lot of mercy and was afraid I'd get attacked by someone who brought problems to themselves. As time went by, I had become more resilient and vigilant about it and had to defend myself and my friends.

If you put me and my friends through some bullshit, I will call you out on it. No questions asked.

You have no idea how much that threat aggravated me, Giraffe. And for that, I hold you to blame for this.

I've been told that it's likely a copy/paste of Rhapsody's riddled statements. Even if it is a cypypasta, the implications of wanting me dead is still there.

I'm not taking your advice. Let me live my life to the fullest.

Rhapsody isn't any better either, knowing the damning actions he did behind my back.

Unfortunately he's still being a toxic ass lately, as he threatened a (possible?) troll making poorly made 20th Century Fox remakes.

Please do a kickflip off a ledge, you fucking retarded faggot.

As if you weren't homophobic enough, you had to use the R slur, coming from an autistic person.

Mate, most autistic people don't have a high tolerance for that word, as it dehumanizes disabled people.

You are autistic yourself, so what gives you the right to use the R slur?

Regardless, aside from you feeding the troll (if they really are trolling), you still wish physical harm on them.
Not a good look on you.

And recently, on the 28th June, 2025, he did the same thing once again on two trolls in the logo community.

Kill yourself in real life!

TheGiraffeGuy2ndAlt commented on **Jcbknight's** profile Jun 6, 2025

Just kill yourself right now!

TheGiraffeGuy2ndAlt commented on **Jcbknight's** profile Jun 6, 2025

Do me a favor, Yakko; kill yourself!

Your threatening people's lives really ruins trust in you and could further ruin your reputation. Permanently.

AFTER THIS DOC WAS PUBLISHED ON BSKY, HE LEGIT HAD THE FUCKING AUDACITY TO DOX MY ACTUAL LAST NAME OUT OF SPITE.

I swear, if you fucking dox my home address and find out where I live, I will lose it.

The comments are gone as I flagged these comments as spam on my ALT DeviantArt account, but Tanzim managed to salvage the evidence before I reported them. I censored my last name for privacy's sake.

-Conclusion-

In closing, Giraffe may look like a peaceful, kind, honest fellow, but with actions like this, he looks like someone who you can't trust. He's a potential stalker, constantly uses people's original characters without permission, distorts the lore of people's OCs, threatens people with death and suicide, doxxes sensitive info, be it their full name or phone number,, promises to stop and then breaks it, has shown to be a homophobe and a plagiarist, the works.

Giraffe, if you happen to read this, then I suggest you fuck off.
Saying "kindly sod off" would've been too nice.

Not only do you refuse to take no for an answer when you resort to stealing other people's OCs with your stupid edits, but you're also an unlikable and untrustworthy dick.

The fact that you even threatening **my** life, telling me to commit suicide over me not getting your way is fucking disheartening.

As I've told you in the past, I had intrusive thoughts in the past, and these thoughts have been ruining my mental health.

I am not going through that shit again.

You have zero original bone in your body. You're a talentless hack. You are not funny. You have been obsessive with us. You are not worth my time. You are an A-Logger to people who you deem "logo kids".. To top it all off, you're also a cold-hearted bastard for threatening me and my friend to kill ourselves among other people, ignoring that **I HAVE BEEN THROUGH SHIT IN MY LIFE YEARS PRIOR.**

It's bad enough you've been following puzzylpiece around, acting like he's an actual fucking brother to you, but your actions you did behind my back, especially in front of me when I block you, paints a negative light on you and your reputation.

Giraffe, please, PLEASE do us a favour, pack it in and leave us alone.

Leave puzzylpiece alone.
Leave Tanzim Kazi alone.
Leave TrixIRGB alone.
Leave Jazzymixel alone.
And most importantly....

LEAVE. ME. THE FUCK. ALONE.

I feel like I owe object thingy people an apology after all this.

You are legit one of the worst people I have ever had the misfortune of dealing with. You are also the worst logo editor in this community in terms of your online behaviour and your refusal to own up to your mistakes.

At this point, I want nothing to do with you anymore. I am not your friend, I will never be your friend, I won't even be your acquaintance. Your actions will come back to bite you in the ass when this document is released.

You cannot hide from this anymore. Your reputation will most likely be damaged.

In the event that this document gets falsely taken down by Giraffe or one of his cronies, you have my full permission to archive it.

And one other thing, I am not here to invade your privacy. Everything will be salvaged for evidence for what you've done on public websites, such as DA, YouTube and Twitter for example.

For those who have ties with TheGiraffeGuy2013, cut him off immediately. You're essentially following someone who stalks users he idolized, plagiarizes people, distorts the lore of OCs and has shown to be a toxic individual who threatens their lives. Stay away from people like him.

Block, report, unwatch, unsubscribe and mute him from your existence. He is not worth your time. If you can, report him to the authorities for what he's done.

ONCE AGAIN, DO NOT HARASS, BULLY OR WITCHHUNT HIM OR ANY USERS MENTIONED IN THIS DOCUMENT. ANY OF YOU DOING SO WILL NOT BE TOLERATED AND WILL BE BLOCKED.
