

Author's Note

10k+ words
1.5k+ quotes
50+ videos
45+ hours worth of content

this took around two months to complete! i still have many videos i *should* be doing, but i dont really want to. all of these are rewatches btw, ive watched most of these videos 5 or more times before i started working on this. the color coding is as follows:

valefisk

teddy

dyno, soll, jan, m0

everyone else

novel, candy/addi, virtrial

lynx

chamber

maivi

all other youtubers

many of these quotes may be misattributed, i am american and very bad with accents, also many of these colors were chosen later on, specifically there might be issues with the orange & yellows. :(

if you have any recommendations for videos i should add, or if ur willing to watch the horror videos and add quotes for that pls lmk :)

the quotes are chosen based on what i found funny, so teddy may be overrepresented because i find him hilarious,, i am the number one teddy enjoyer

please shoot me
