

Subject: Year 10 French			
Year 10 Curriculum Intent: The MFL department aims to provide students with an excellent foundation in language learning through a skills based curriculum, building students confidence in the four skills essential to learning a language; speaking, listening, reading and writing. The Year 10 curriculum builds from a strong end of key stage 3, where students are able to write detailed sentences, including opinions and reasons in French about topics such as school, family, where I live and free time activities. A range of knowledge and skills will be developed throughout each unit with repeated practice. Key structures sequenced through each topic so that via the constant repetition of familiar concepts with increasing complexity, our pupils will be able to make links between each area to develop their understanding of how French works.
