So Suave “read this and get laid” book

**Subject Line: My phone won’t stop blowing up!**

Every woman I talk to wants to “take it to the next level.”

I once was struggling for any drop of female attention I could get.

Years of meeting new women and RARELY getting a first date.

Constantly asking myself “what am I doing wrong?”

I searched for the answers and there was an overwhelming amount of information.

I was told to be the friendly, nice guy...

That didn’t work.

I tried to be the slick jerk,

That was also a bust.

Nothing was working and I felt like an absolute failure in my conquest for dating.

I wanted to give up.

At my worst point when my goals seemed impossible... I got lucky.

The tools I knew existed but did not know where, stumbled upon me.

The guide to grabbing a woman’s attention not only for a first date,

But to BANG them on it as well.

Thankfully, these tools are available to the public now.

Any man willing to work on their game can find success.
