Info on Yanmega from watching the finals match - Swagger?, Looks like swagger, Detect, Bug Buzz, Hidden power that empoleon resists but one shots salamence so most definitely ice, Life orb. Ability appears to be speed boost. He leads off with Yanmega and Zapdos twice. 2nd game he switches out instantly to shedinja tho. I dont know what moves the opposing salamence had but this was the game where shedinja 1 v 3ed and his opponent didnt have anything for it. Not sure if its a stretch to say that Yanmega helped shedinja secure that victory. 3rd game, he leads off with yanmega and moltres. It dies very early game 3.
