

Community Grant Worksheet

During the RMP Cohort Winter Retreat, one goal is to understand the grant landscape within which you are working and to share grant opportunities among cohort members. We thus ask that you compile a list of the major RMP-related grants that your community has, how they are related to RMP, who is responsible for managing them, and the status of the grants (for example - not yet started, in progress, complete). Please bring this filled-out list to the retreat, as we will be discussing these together.

In case helpful, here is a [link to one website](#) where you can find the federal grants that your community has received since fiscal year 2008. Please find the main ones that are related to relocation, managed-retreat, and protect-in-place efforts. Please also list any other major RMP grants that your community has received from state, philanthropic, or other sources.

Grant	How does this grant relate to RMP?	What is the date of this grant?	What is the status of this grant? -not yet started -in progress -complete -other	Who is responsible for managing this grant?
