PROJECT DETAILS

Current Project: RXA Portal (Client: PharMerica, US – Y&L – Remote)

Team Size: 10

Role: OutSystems Lead Developer

Duration: 11

months

Description: Responsible for the architecture, development, and ongoing maintenance of a comprehensive web portal designed to manage customer claims, user profiles, and account details.

- Collaborated with cross-functional teams to deliver key features enabling residents and families to access medication histories, insurance data, and billing statements.
- Focused on ensuring seamless system integrations to facilitate real-time data accuracy and improve overall customer service efficiency.

Project #4: Certification Authority (Client Name – Confidential - Remote)

Team Size: 7

Role: OutSystems Lead Developer

Duration: 2.5 years

Description: Worked on OutSystems 11 with Web and Reactive modules for Phase 1 and Phase 2 of this project. This app has different levels of approval and rejection with different types of users.

Also, developed most of the pages in Reactive in the same application.

- My key responsibilities included collaborating with the project manager to analyze client-generated JIRA tickets and subsequently delegating tasks to fellow developers while maintaining vigilant follow-ups for timely completion.

Project #3: Finance System (ODC Studio) (Client- OutSystems - Remote)

Team Size: 5

Role: Senior OutSystems Developer

Duration: 4 months

Description: Collaborated with the OutSystems team using ODC Studio to develop a finance system for managing client and debtor data, including invoices, purchases, and payments. Translated client requirements into actionable tasks and managed the project workflow via Trello.

Project #2: Next Generation Procurement System (NGPS, Singapore - Onsite)

Team Size: 30

Role: Senior System Analyst (OutSystems)

Duration: 1.9 years

Description: As Team Lead for the NGPS project at DSTA, I oversaw the development of a user-friendly procurement system, focusing on contracts and sourcing.

- Managed a team of three developers, conducted client requirement analysis, code analysis, and implemented agile methodologies.

Project #1: Horizon Retail Construction (OutSystems)

Team Size: 4

Role: OutSystems Lead Developer

Duration: 7 months

Description: Led the development of a project bidding portal and mobile app for HRC, serving Customers, Contractors, and Admins. Managed the project with a team of 3 junior developers.

Project #1: Katalyst Procurement System (OutSystems)

Team Size: 2

Role: OutSystems Developer

Duration: 6 months

Description: Developed the Katalyst Procurement System to streamline internal procurement, enabling employees to submit requests for required items. Implemented a multi-step approval process involving budget owners, finance managers, and the purchase request team.

PHP: Initial 4 years of experience in PHP with different frameworks of PHP like Codeigniter, CakePHP, Yii. Also had good exposure to JS, jQuery, HTML, and CSS.

TECHNICAL SKILL SETS
