Practice with your partner - can you answer the following questions - research where needed to supplement your knowledge:

1. What “population” is at highest risk of zoonotic disease? Why?
2. Can you name four common zoonotic diseases?
3. We have not talked about Leptospirosis yet, but many of you vaccinate your animals. What is Lepto?
4. Puppies and kittens are usually given a combination vaccine - what is this? What does it include?
5. What is a parasite?
6. What is a host?
7. How can you remove a tick from your dogs back?
8. Why are fleas a concern?
9. What is distemper? (Not zoonotic but common disease)
10. What’s the best way to prevent zoonotic disease?
