Matches of rectangle patterns - J3 and BoB (Comparison of rectangle patterns in J3 & BoB)

TBOB: RECTANGLES - sort of encompasses the following two docs, provides information on Chunk Theory and Squarephabet Theory

BoB Chunk Theory (1)- Rectangles in BoB chunked and sectioned by page. frequency analysis (and potential substitution)

Rectangle: Chunk Theories (2)- All Chunk Theory colored sheets

Unnamed Rectangle Decoding Method - Assigning letters to the lengths of the rectangles and the spacing between them(Also called Squarephabet)

Rectangles RGB theory - Counting the red, green and blue rectangles could create a RGB/hex code answering "what's ford's fave color" the code on page 187

Missing Pages Rectangles (spring.bomb) Overlaying rectangle patterns to try and find visible cohesion / rectangle encoding research

Rectangles are a Polybius Theory - Assigning the six rectangles numbers and applying them to a Polybius table

ANY SITES WE NEED, PASTE THEM IN THIS DOC!!

COUNTDOWN
Password: T.J. Eckleburg
(TJEckleburg, T J Eckleburg, and tjeckleburg works too, same countdown)

(codes translate to “lost files (bill’s cipher), also mice (coffee stain cipher combined with anagram-jasper)
Coffee stains translate to "HIS DIMENSION NOW DECEASED SCALENE AND EUCLID REST IN PIECE." Euclid and Scalene both have to do with triangles. Rest in piece means Bill hated them. Source code also mentions something about a brother.

Dedicated Soos countdown update document:

COUNT DOWN DISCUSSION

DIPPER SECRET SITE

(As of now, this is not BoB related) site is down
Site was found in 2021 by accident and taken down a day after. Originally had a password protected home page that would let you listen to the full version of Disco Girl if you entered the password “MasonPines.” Presumed to be iam8bit owned and planned to be reactivated after vinyl release to house Disco Girl after rights to use song in vinyl were revoked but never ended up happening.
