

## Spation Commissions 2024 Q1 and cont.

Comm status: Closed\* (2/2)

**13\$/1000 words.**

We write smut. All sorts.

### Extras and variables:

Primary ~~irregular fetish~~: +10\$ (scrapped from 2022)

Fetish: +5\$ for each separate combination (groups)

General **list of fetishes** where this **extra fee applies**: scat, gore, watersports, heavy non-con, NTR, cute and funny, todd[], variations of weight gain, heavy focus and overly detailed transformations (animal, plant, object, etc.), zoo, detailed smell or vomit. Most stuff is okay, if you are unsure just ask!

Generic safe list without extra fees: vanilla, furry (humanoid), romance, futa, mild humiliation, BL (yaoi), GL (yuri), exhibitionism, act of farting on its own... there's a lot, really, so please ask!

### Above standard length:

5\$ per every 60 000 words

For example 250k word story: 5\$ +5\$ + 5\$+5\$ = +20\$

**As of 2024 we will generally decline private commissions**

Big practical **Example**:

70000 words story with scat, gore, transformation to plant

910\$ ( 70k words) + 5\$ (for going above 60k) + 5\$ (1<sup>st</sup> fetish - scat) + 5\$ (2<sup>nd</sup> fetish - gore) + 5\$ (3<sup>rd</sup> fetish – TF) = 930\$

\* Unless you already have a story in the making with us!

### **FAQ**

#### ***How much do I need to provide when I want a story commission?***

Generally, we can work with as little as a fandom, archetype characters, desired fetishes and or desired flow of the story. Being as specific or as detailed as you can helps a lot, but we can work it out with less too. We generally do advise you to “speak to us” so we can get a firm grasp on the story you wish to read.

#### ***Why the extra fees for some fetishes?***

Certain websites have strict rules, usually for a good reason. But also consider this: going in-depth into some fetishes also requires some additional research for us. We don't judge anyone's fetish, and are generally okay with writing anything. The fee was lowered from 10\$ to 5\$ for each fetish.

---

<sup>1</sup> [1] 1 Batch = 5000 words. If it is 6000 we may send 3000. We may also send you a full batch at a time, if the story commissioned is long – 10k and above.

### ***Am I fine with my story going public?***

We love spreading stories. We never disclose your nickname or other data to anyone or anything, unless you want the story to be a sort of promotional text. In general, we simply label a story as “commission”, but we can omit that as well. Stories are shared with YOU first, then our supporters in the form of rewards and lastly publicly as excerpts or in full.

### ***13\$? I remember you asked way less earlier out!***

We understand. There is generally an upward slope for someone’s work that can be backed by years of experience, skill, expertise, degrees. However, because skill and improvement are subjective metrics, let’s check how many bills are currently in circulation compared to the past years on [this](#) site.

### **Long works – serialisation or ongoing stories without upper limit and High word count**

There are stories which have limitless potential for it to continue. A story of 10 000 words vs. a story that goes beyond 100 000 words are worlds apart. Stories like these are complex and may require more time to plan and write (hence the thresholds). Although we will try to deliver bi-weekly (2x a month) with 5k words, we are grateful for your continued understanding along the process!

### ***How long is the delivery of stories usually?***

This largely depends on the story length, but we can safely say that we usually work in batches of at least 5000 words. For one batch it can take anywhere between 8 -12 days to complete. If your story is around 10,000 words long, the second half may usually be done more quickly, ranging from 5-8 days. So about 13-20 days total. The reason is as follows: an initial “sketch” of the story takes longer to come up with, but once that hurdle is passed, it is easier to write the whole story. Unless it takes on a more massive scale of a 50,000+ word story. Small disclaimer: we do work a daytime job, so continued patience is always much appreciated and we will try to notify you should your story take a lot longer.

### ***Do you guys have discounts?***

Yes, if you become a Ko-Fi supporter at <https://ko-fi.com/spation> you receive access to all of our other stories starting at 5\$ (through G Drive). Our newest tier 25\$ grants you access to all our writings, our archive and adds 1000 words/month to your commissioned story and a batch (5k) being written as priority – you can skip the waiting queue.

### ***Are there waiting lists?***

Sometimes we end up with more people asking for commissions while other stories are already in the writing, so you might end up on a waiting list. We can generally give a rather accurate date of when we can start working on your story. We usually inform any new commissioners about this in advance. With the price change, we also expect less traffic so the queues should be less frequent.

### ***My story is being written, but you have not updated me in a while - I even saw you like big tiddies on twitter!!!1***

We will reach out to you if we have issues or encounter delays while writing your story. We will contact you as soon as at least half a batch is presentable (if it is a long story, it will be once 1 batch is ready). We can also show you the draft but those are usually very messy.

### ***When's payment due?***

Payment is usually requested when we have at least half of a batch or half of the desired span of the story (3000 words if it is a 6000 word story). We send out a *Paypal* invoice to the email address of your choice and once this is complete, we send you a link to the shared drive (*Google*) where you can comment on the story, or reply to us on social media or via email about what you might want to have changed. We can also send you a WIP PDF file.

### ***Do you guys do other things too?***

If you don't mind our online background as an erotica writer, you can ask us about professional translations and proofreading services as well. We offer different languages – Japanese, German, English and some middle European languages! We shit you not, we have a background and a degree - just reach out!
