

Parent Feedback about the Illinois Service Delivery Plan

The Illinois Title IC Program is updating activities and measures for success. These are the proposed updates that will happen over the next three years.

Proposed Activities

Extra English language arts and math activities:

- Cultural and linguistic engagement and enrichment for students in K-12
- Reading, language arts, and math instruction during the summer and school year either through tutors doing home visits or school-based programs for K-8 students

Preschool and early learning activities:

- Help families learn about preschool options and assist with attendance when possible
- Provide instruction for preschool children in summer programs focused on early literacy and math skills

Activities to help improve graduation from high school:

- Activities to explore college and career pathways
- Check on student graduation plans and provide support to meet graduation requirements
- Provide credit recovery for students behind in credits

Activities to help improve out-of-school youth (OSY) achievement:

- Instruction to improve English skills, home language skills, life skills, goal setting, and career preparation
- Provide short mini-lessons designed to improve English language and life skills

Other support activities:

- Coordinate with other program and increase access to medical, dental, mental health, disability, vision, nutrition, translation, and other services
- Provide family development activities to increase knowledge of learning strategies for the home

What do you think about the proposed activities?

Proposed Measures of Success

English language arts and math measures:

- Increase the percentage of students who participate in instruction
- Improve student reading and math skills as shown on pre/post tests
- Tutor reports will show increases in reading, math, and other academic skills

Preschool and early learning measures:

- Increase enrollment in preschool programs
- Improve mastery of skills preschool children need in literacy and math

Measures for improving graduation from high school:

- Learning and services plan to show progress toward individual goals
- Checking in on graduation plans to help students meet requirements

Measures for improving OSY achievement:

- Increase percentage of OSY receiving services
- Learning and services plan to show progress toward individual goals
- Improving scores on mini-lessons for English and life skills

Additional support measures:

- Parents will report on surveys that they received useful information
- Services logs will show that family needs were met

What do you think about the proposed measures?
