

OFFICE OF THE REGISTRAR

OAKLAND UNIVERSITY

To whom it may concern:

Oakland University has authorized the National Student Clearinghouse to provide on-demand enrollment verification for students to request through our self-service records. The enrollment status of “W” or “G” may cause confusion in these letters because the dates listed are differently recorded than any other enrollment status.

Certified date – The effective (or start date) of the “W” or “G” status

Begin date and End date – The last reported semester, if applicable

The certified date is in effect until another reported status or is considered continuous to present day. In other words, the begin date and end date are not the date range of these specific statuses of “W” or “G” ; these are simply the last enrolled semester of the student. All other statuses will list the date range of the semester listed.

If you would like to further discuss, please contact the Registrar Services Team.

Sincerely,
