

Survey Results: [ACCESS EAB Meeting \(June 10, 2026\)](#)

The ACO received three responses out of the six who attended the virtual ACCESS External Advisory Board meeting on Wednesday, June 10, 2026. The survey consisted of five questions and was open from June 16 to June 23 with one reminder email sent. Below is a summary of the responses received.

Here is a link to the survey responses in spreadsheet formatting: [ACCESS EAB Meeting - virtual \(June 10, 2026\)](#). Please request access if you have issues viewing the spreadsheet.

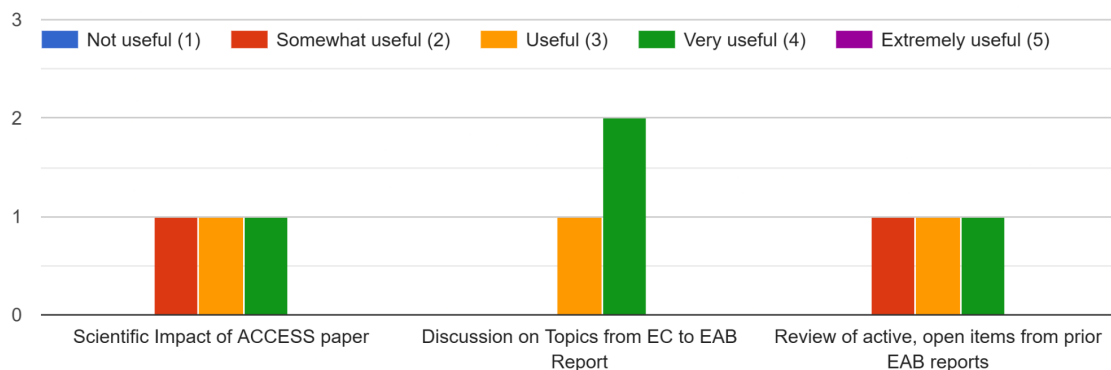

Question 1

Did you find the two hour virtual meeting effective in terms of content and topics for discussion? Please rate them from 1 (not effective) to 5 (extremely effective).

Question 2

Did you find the topics covered useful? Please rate them from 1 (not useful) to 5 (extremely useful).

Question 3**Are there topics you would have liked to have seen covered?**

2 responses

1. We understand that there is not a lot of information that is able to be shared about future directions for leadership and funding, so it is understandable that not more was shared at this time.
2. Citations analysis (or case study) from the previous publication

Question 4**What would make these meetings more effective?**

1 response

The meetings are well run and facilitated. It seems that everyone has an opportunity to share their thoughts and gather feedback on ideas. It may be better to share a link in zoom to the file being presented and have links to further details, like the paragraphs in the report being reviewed so that there would be more context for the discussion. But we did it ourselves in the comments in Zoom, so that was fine.

Question 5**Please note any additional suggestions or comments for improving future EAB meetings.**

1 response

It is really great of the teams to ask for topics and adjust prior to meeting as is consistently done now, thank you.
