What's Going Well?

- Our child find process is going well and students are receiving the interventions they need and accessing services when needed.
- Through our K-6 Literacy SDI, our teachers are making more data informed decisions in reading.
- We have special education staff who are part of the team reviewing and selecting our new reading comprehension curriculum at the elementary.
- We are looking into a new curriculum for our Instructional Strategist II programs K-12. This curriculum will include reading, math, science, social studies, and social skills/transition to adulthood for all grades. We are very excited to learn more about it in January! More information to come!!

Professional Learning:

- **K-6 Literacy SDI**
 - K-6 special education teachers and a grade level general education teachers met for the day and focused on implementation fidelity and intensifying instruction.
- **K-12 Strat II Team**
 - Teachers have completed the Iowa Literacy Observation Tool-Scoring (ILOT) and have had myself and Mrs. Kluver, instructional coach, also completed one. These results will be reviewed in future PD sessions.
- **Teaching Associates**
 - Our TAs taking Paraeducator classes had time to continue their work on their classes.
