# How they work?

## **Recurring**

On Monday all recurring shucks are created for the week.

The assigned team member can see their shucks from the dashboard

All team members can view all shucks & their status on the “System Display”

Bullseye => System => Shucks

## **Roles**

The 4 roles are Retail (R), Classes (S), Open (O), Close (C)

They are assigned to a team member's timecard for a given location
