Speech

Gaming ▪

So I know you guys are probably thinking JD why in the world are you doing your speech about gaming. well i've got a pretty good reason.

Number 1.The first thing i will talk about is gear. Because everyone knows that if you want to be a pro at something you need good gear right.well that's where i become useful. because if you need good gear just come to me and if you tell me your situation i will give you suggestions on what gear to get.lets see if you played on nintendo you would need a pro controller for $130 you would also need a headset which would cost an extra $180.

Number 2. Now the second thing I will talk about is games. And you might be thinking JD we don't all like the same games. And i know that so instead of showing games i like i will tell you the top 5 games in the world. So let's get into the list.

1.tetris
2.tarzan [ps1]
3.fortnite battle royale
4.FIFA 18
5.minecraft

Number 3. So now that you know what to get and what to play if you ever need assistance Just buy me vbuck's and then i'll help you.
