

Perci Big Buddies Contact

I am Hannah-Leticia Baur, an international student from Germany studying Psychology and Neuroscience in the US. Alongside my academic journey, I actively engage in volunteer work, such as ENGIN Ukraine. On campus, I hold the position of the event coordinator for both the international club and the psychology club. Additionally I am part of the Student Health Promotion Team, where I contribute to raising awareness about health-related topics and promote the overall well-being of my peers. I am looking forward to helping other students from all over the world to get into US universities.
