

What is iPilot Checkout?

iPilot - Checkout

Overview

The iPilot Checkout program provides teachers the opportunity to checkout for limited time a variety of instructional technology tools for their classroom. Teachers can now evaluate if a tool will be appropriate for their classroom. Devices are updated as new items become available to the district.

Details

- Educational Technology provides devices at district office.
- Teachers access devices through checkout process at district office
- District Educational Technology Instructional Specialists provide support and checkouts as needed.
