

Wednesday, September 2

Hello BPS101 Families-

As you have already experienced, this school year will be like no other. Another difference will be that the majority of our parent interaction events will be held virtually this year. Keep an eye out for your school's newsletter for details on upcoming virtual opportunities for parents such as curriculum nights and parent/teacher conferences.

The Restore BPS101 plan is reviewed weekly by a leadership team that responds to feedback and local conditions. No major changes have been made, but additional small groups of students have been identified to return to RMS and BHS. As more groups return to RMS and BHS, the district will monitor the schools and determine when it is possible to allow additional students into the school buildings. As your student is selected to return to in-person learning, you will receive notification from the school. There are many factors that influence the ability to have more students in the building, but it is the district's goal to continue to bring in more students when the conditions allow. For additional information on the Restore BPS101 plan please visit restore.bps101.net.

As a reminder, there is no school for all students this Friday, September 4, and Monday, September 7. We hope that you enjoy this long Labor Day weekend.

Kind regards,
The Restore BPS101 Team
