

## BIS Career Day Keynote Speaker

### Kaycee Odom

BIS Career Day is here! On Monday, January 20th we will welcome guest speaker Kaycee Odom to launch the day and inspire our students in grades 6-12 with her talk, “The Courage to Make a Career out of Personal Growth”.

Kaycee has spent over 25 years working with individuals, families, and businesses in transition – helping them to clarify their vision, identify their barriers to being where they want to be, and to create step by step actions to ensuring outcomes.

With a master’s degree in counseling, and over 15 years in that field prior to transitioning to corporate sales, Kaycee has both the training and the personal experience to understand the barriers that can keep us stuck and fearing change. When she realized that, as a single parent, she needed to ‘reinvent herself’ and find a job that would enable her to pay for her son’s college tuition, she honed her ability to use daily practices in overcoming fear during her own transition.

With a **newfound** appreciation for pushing the envelope and growing in "head, heart, and hand", she quit her corporate job, moved to Bali and began her own therapeutic transition business, Iteration Guidance. In one final personal ‘iteration’ she accepted a position in HR here in Bali and is currently Manager of People Strategy, helping her organization to empower and motivate their own people.
