# CNFans Helper - Privacy Policy

CNFans Helper does not collect, transmit, or share any personal user data.

The extension only reads the current CNFans.com product page URL to inject a referral code (if the user consents) and to remove page popups. No personal data is accessed, stored, or transmitted. All actions happen locally in the browser via chrome.storage.local.

No external servers are used. No information is logged or shared.

If you have questions, you may contact the developer via the Chrome Web Store listing.
