

"Earth Day" Celebration Videos Planning (April 2025)

Dear partners, there are 2 tasks in the Earth Day celebration video creation activity. **All partners** will work on both **"Task 1"** and **"Task 2"** parts of this activity.

Task 1: Creating Earth image with ["Microsoft Copilot"](#) (or another AI tool). Each partner will add the Earth image created by their students to the ["Twinspace - Materials - Images - APRIL ACTIVITY - EARTH IMAGES"](#) folder by typing the group name. **(Example: Image name - GROUP 1)**

Task 2: Creating a video with our message about climate change by voicing the image created by our project partner with ["ChatterPixKids App"](#). Each partner will add the Earth Day celebrating video created by their students to the ["Twinspace - Materials - Videos - APRIL ACTIVITY - EARTH DAY VIDEOS"](#) folder by typing the group name. **(Example: Image name - GROUP 1)**

When the project partners complete their work on the activity, all videos will be combined by the project founders to create an "Earth Day Celebration Video" that includes our messages to tackle climate change.

| Group No | TASK 1 Project partner who will create the Earth image (Teacher - School - Students) | TASK 2 Project partner who will create the Earth Day celebration video (Teacher - School - Students) | Video Youtube Link |
