

	SPOTLIGHT: Makerspaces Made to Last: Building Student Leadership to Shift Culture
	Robin Hosemann

<https://docs.google.com/presentation/d/1MnqAOMnpwDkuY43VeJBSpr2gDk4FZD2b3A0denwqbic/mobilepresent?slide=id.p> - link for session

Culture in the space is important - build a culture of helping each other, taking risks, creating, seeing peers as resources

Conference room for maker space, but students come out into library for more space

Students sign up to use the space before school, after school and a few other times in the day.

Student reflections - video, written etc can help show that the activities support the standards

Resources for ideas:

Maker Space Playbook - pdf download

Make magazine

Bricks and mini figs in Madison - resale shop for Lego materials

Donations for Lego materials - could have a drive asking for students to donate a Baggie of Lego bricks
