

Dear Airbnb Hosts,

Did you know 70% of negative hotel reviews happen because of simple misunderstandings?

Hi, I'm Julian, Co-founder of Bonusclub.io and a former Airbnb host myself. Being available 24/7, managing check-ins and check-outs, and making sure everything is perfect—being an Airbnb host can be tough.

You're constantly worried about making your guests happy so they leave with a smile instead of a 1-star review. And on top of that, you may experience shrinking profits while paying up to 25% in fees to booking platforms just to get your rooms filled.

That's where Bonusclub comes in.

Imagine having a personalized web page for each guest, providing them with check-in information, house rules, Wi-Fi keys, directions, local weather updates, emergency contacts, restaurant recommendations, tourist spots, and even upsell opportunities. With Bonusclub, you can:

- Save hundreds of hours each year,
- Turn your guests into superfans so they leave better reviews,
- Get more bookings as well, for less than \$25 a month.

This way, Jack transformed his rental from barely profitable to being booked out almost 100% of the time in just a couple of months.

Or take Karen, who was skeptical at first, but after using Bonusclub, she got more 5-star reviews and bookings even in the low season.

So, how can you get started?

This month, we're offering a FREE download of "The Ultimate Airbnb Review Guide." This guide breaks down the 100 most common reasons behind negative reviews, based on over 25,000 one-star reviews.

So, we looked at 25.000 terrible reviews, just so you can avoid the same mistakes.

Simply click on the link below to download the complete guide.

So, if you're ready to supercharge your Airbnb,
