TALKING POINTS

OVERALL HOME BASE

- Joe Biden is running to save democracy from the enormous threat Donald Trump poses.
- President Biden wakes up every single day fighting to make life better for working people.
- Trump spends every day thinking about himself, retribution and revenge.
- That's the difference, and that's the clear choice.

ECONOMY

- President Biden is working to lower costs and build the economy from the bottom up and middle out to give everyone a fair shot at the American Dream while Donald Trump is focused on rigging the economy for himself and his ultra-wealthy friends.
- **President Biden understands that middle-class life is too expensive right now. That is why he has passed laws to lower prescription drug costs, healthcare premiums, and energy costs. He will keep working every day to lower the cost of living, because he knows there is more work to do.**
- **It's a stark contrast to Donald Trump, whose economic policies consistently prioritize the interests of the wealthy and big corporations at the expense of working families, and would make life more expensive across the country**

REPRODUCTIVE FREEDOMS

- Nevada is one of the most pro-choice states in the country. Here in Nevada, 80% of voters believe abortion should be legal in all or most cases.
- **But even the strongest protections at the state level won't stop Donald Trump**, who promised "to be leading the charge" in getting a national abortion ban passed that would rip away Nevadans' freedoms.
- Trump brags that he proudly overturned Roe v. Wade. He owns the extreme state abortion bans that have devastated women's rights across the country – including the near total ban in our neighboring state of Arizona.

DEMOCRACY

- When Joe Biden ran for president four years ago, he said, "We're in a battle for the soul of America," and as president, he has made protecting American democracy a central cause of his administration.
- If reelected, Trump has made it clear that his main goal as president is to use his power to systematically dismantle and destroy our democracy – he is promising to rule as a dictator and use the United States government to exact retribution on his political enemies.

LOWERING PRESCRIPTION DRUG AND HEALTH CARE COSTS

- President Biden and Vice President Harris are the only candidates in this race lowering costs and expanding access to health care:
    - Took on Big Pharma to lower prescription drug costs and cap insulin at $35 a month for seniors
    - Bolstered the ACA to lower premiums, saving millions of Americans an average of $800 per year
    - Got more Americans covered than under any other president— driving record low uninsured rates
    - Made affordable health care more accessible by making it easier for people to find and enroll in health care plans
    - Preventing one million surprise medical bills every month
    - Expanding access to mental health care
- Trump and Republicans' plans to gut health care for millions of Americans also include:
    - Ripping away the health care of as many as 45 million people enrolled through the ACA
    - Threatening coverage and care for an additional over 60 million Americans with Medicaid
    - Gutting health care protections for 100 million Americans with pre-existing conditions like cancer, asthma, and diabetes
    - Raising premiums and health care costs by thousands of dollars a year for

millions of Americans

○ Allowing insurance companies to rip off Americans with junk insurance products ○ Raising seniors' prescription drug costs by hundreds of dollars per year ○ Gutting Medicare

UNIONS

- Joe Biden is the most pro-union and pro-worker president of our lifetime, and has been a champion for working families over corporations his entire career.
- Nevada is one of the most union-dense states in the nation, and these unions are growing and benefiting as a result of President Biden's Bipartisan Infrastructure Law, which has created numerous high-paying union jobs.
- Helped save the pensions of hundreds of thousands of union workers and retirees, which would include nearly 170,000 Nevadan union workers.
- Meanwhile, Donald Trump's trickle-down policies failed Americans: his deeply unpopular tax scam lined the pockets of the ultra-rich, created incentives for corporations to ship American jobs overseas, hurt main-street businesses, and blew up the deficit.
