

Career Mentoring Fact Sheet

What is Career Mentoring?

Career Mentoring is a Career Exploration activity in which a student is matched one-on-one or in small groups with an adult professional to explore potential careers and related educational issues. Different than programs such as Big Brother, Big Sister, the career mentor serves as a career resource by sharing insights and providing guidance about the workplace, careers and postsecondary education/training. This is accomplished through formal and informal meetings organized at the school, in the workplace or online, but never in an unsupervised environment or the home. (Sometimes a mentor may work with and support a small group of students.)

The development of a trusting relationship between the student and the mentor is the key to a successful experience. Designed to meet specific learning outcomes, career mentoring is educationally rich, is tied to the curriculum, and helps students connect what they're learning in school with the workplace.

Virtual Note: Students who are currently paired with a Career Mentor may continue to receive support via telephone or some other technology if the necessary permissions, protections and guidance are in place to promote student safety.
