> "[Alpha Slash! Gush out, Spinosaurus!](https://imgur.com/DmldPtI)"

Spiny, the Spinosaurus, was the Alpha Gang's second dinosaur and the first wild dinosaur to become a main dinosaur. As a Spinosaurus, Spiny is [15 m long](https://imgur.com/m8JJ4Bo), making him the biggest of the main dinosaurs, and has the **Water** attribute.

He doesn't seem to be particularly close to any of the Alpha Gang, though, like the other dinos, is shown to like Rod and Laura better than the Alpha Trio. He is typically summoned by Zander and Ursula. He is a very fast and agile dinosaur that excels at aquatic combat, though his endurance is less than that of Ace.

Despite being one of the largest dinosaurs, Spiny is often rag-dolled by smaller dinosaurs when fighting on land. However, his track record in the water is definitely better than when he fights on land.

****Move Cards****

Move Cards are special cards that boost a dinosaur's stats, as well as allow them to perform special attacks that can have devastating effects.

Fusion Moves are special moves that occur when two different Move Cards are used simultaneously. [This doubles the power of the moves](https://imgur.com/QSKS1ar).

In Season 2 Episode 52, [Dr. Z improved the power of the Move Cards](https://imgur.com/ZvbkJnu) to counter the Spectral Space Pirates' Spectral Armor, as it was strong enough to [withstand the power of their original Moves](https://imgur.com/2DRdRka).

[**Shockwave**]/(highlight)

A funnel of water rises around the user, then shoots off as tendrils to surround the opponent.

[The Element Boosters were created by Dr. Z using the information gathered from a piece of the Spectral Armor left behind in their first battle with the Spectral Space Pirates](https://imgur.com/5HqRVFb). When combined with the Dino Bracer, the device grants the dinosaur a suit of armor called DinoTector, increasing its power. With the DinoTector armor, the dinosaur is capable of using its "Ultimate Move."
