

Resolved,

1. The GNSO Council expresses its gratitude to the CCWG-IG for its work in ensuring that discussions on Internet governance take place within the ICANN context.
2. The GNSO Council emphasizes that it fully recognizes the importance of the continued involvement of the ICANN community in Internet governance-related activities that are appropriate to ICANN's mission.
3. The GNSO Council requests that members of the CCWG-IG and others interested parties come together to explore a framework / model that more fully addresses the concerns that have been expressed by the GNSO Council, and submit this framework / model to the GNSO Council for its consideration by ICANN61.
4. The GNSO will itemize and list these concerns and forward them to the CCWG-IG co-chairs no later than one week after its next regular meeting,
5. the GNSO Council shall consider withdrawing as a Chartering Organization from the CCWG-IG at the conclusion of ICANN 61 if the framework/model mentioned in clause #3 does not meet GNSO's concerns.
6. The GNSO Council emphasizes that this potential withdrawal as a Chartering Organization from the CCWG-IG reflects solely the Council's conclusion that, based on the reports it has received from the CCWG-IG, a CCWG is not an appropriate vehicle for the CCWG-IG's work, and the GNSO Council's decision on this narrow point is not intended to prevent any GNSO community members who have been participating in the CCWG-IG from continuing to participate in the group's activities should they decide to do so.
7. The GNSO Council requests that the GNSO Secretariat communicate the content of this motion to the CCWG-IG and the other Chartering Organizations.
