Description of any broader issues not related to specific violations (2000-word limit)	Description should be succinct, highlighting issues of relevance to the mandate of the COI, and include concrete examples whenever possible.

	Please also include information on the impact of these violations, as well as age and gender-sensitive considerations (e.g. how these violations affected women and men, girls and boys differently) as relevant. The material studied in schools operated by the PA and UNRWA (as well as Hamas in Gaza), is one of the main influencing factors on Palestinian children and youth who turn to orchestrated and non-orchestrated violence against individual Jewish civilians, which has cost thousands of lives so far. It certainly leads to human rights violations perpetrated against Jewish civilians in the country before and after the date taken by the COI as its starting point.
