

RECOMMENDATION FROM PROJECT WORK AT VIRTUAL LAB ApS IN 2023 IN ESBJERG, DENMARK

Martin Christensen

AD

I am writing to offer a recommendation for Alex, who has been an integral part of our team. While Alex's primary focus was on the development of our driver theory exam training app, he also actively contributed to various other tasks. Alex's expertise and dedication were most evident in his work on the app, where his deep understanding of the subject matter and attention to detail were apparent. Additionally, his positive collaboration, adaptability, and professionalism greatly contributed to our team's success. Based on his valuable contributions and commitment, I am confident in recommending Alex for future opportunities. Best regards, Martin Christensen Virtual Lab ApS

Karsten Møller Brogaard

CTO at Virtual Lab ApS

Alex has recently developed an app for our company utilizing Unity3D. He exhibits the ability to operate independently and maintain a structured approach to his tasks. With no hesitation, I can suggest him for any future Unity3D related assignments, given his demonstrated capacity for dedication and structured work.

RECOMMENDATION FROM MY STUDENT I TUTORED IN C#

"Having Alex as a mentor is great. He motivates me to work with C# and programming in general and I enjoy programming more in my spare time because of him. If I have some questions about C# or something which i am confused about, Alex is very good at explaining and helping me to get a better understanding.

Alex is very professional and very structured, there is a good plan of what we are going to work with for each time, and he keeps making it interesting.

I found Alex through www.superprof.dk as a mentor, his profile seemed more professional than the other mentors."

RECOMMENDATION FROM MY INTERNSHIP AT 2CARE4

Software Developer (Internship), 2019, Esbjerg, Denmark

2Care4 is a medical company, they sell, buy and produce medicine.

- Worked as a fullstack software developer for 10 weeks in an ASP.NET and .NET environment.
- Helped visualize data in charts for internal use.
- Worked with improving design and user functionality of internal websites that other departments in the company would use.
- Added features to internal data import and management tools. Also added a tool to export relevant data to Excel.

Contact: Conni Fuglsang, Head of IT

Phone: +45 2611 6673, Email: cof@2care4.dk

Esbjerg, 05.04.2019

Alex Andreasen har i sit praktikforløb bidraget yderst positiv til vores it-afdeling i 2care4.

Han har med sparring fra vores programmører samt forretningen formået at løse opgaver med den rette fremgangsmåde, så at der er taget højde for skalerbarhed og performance. I opgaveløsningen har Alex arbejdet både med back- og front-end og han har påvist en god evne til bruge generiske modeller samt anvende frameworks heriblandt Entity Framework.

Opgaverne omfatter blandt andet:

- Optimering og ikke mindst udarbejdelse af finish på grafer
- Tilføjelse af diverse features til UI
- Udarbejdelse af valideringsværktøj i forbindelse med data import

Vi medsender de bedste anbefalinger,

Venlig hilsen / Kind regards

2care4
your medical partner

RECOMMENDATIONS FROM CLIENT COMPANIES

Recommendation from the company MOCH

In the screenshot below you will find a recommendation I received from the company MOCH, based in Copenhagen. I helped them restore some 3D models and textures that had gone missing when upgrading to a newer version of Unity. The recommendation can also be seen at the bottom of my Worksome profile in case you wish to machine translate it: <https://use.worksome.dk/profile/38432>

In short they were very satisfied with our collaboration and found me to work thoroughly and well until the best solution was found.

ALEX' REVIEWS

MOCH

3D-ninja til tandretning, asap/inden jul

★★★★★ 1 år siden

Alex har gjort en ihærdig indsats for at løse nogle ret komplekse problemstillinger med en række 3D-modeller. Han har afprøvet forskellige løsningsmodeller indtil vi har fundet den bedst mulige. Grundig, systematisk og vedholdende arbejdsindsats. Vores bedste anbefalinger.

Recommendation from the startup ReSync

Below this text you will find a recommendation, written in Danish, from the startup ReSync. Michael can be reached by phone if you wish to speak to him. I worked for him and Sarah, both of their email addresses mentioned in the recommendation. I created a game with 4 small games inside. It was created in Unity. They write in their recommendation that they were very satisfied with having me as their Unity developer, that I kept them up to date regularly and that the communication was easy and straightforward despite me working for them remotely. Please let me know if you would like a full translation of the review. Please also be advised that some machine learning tools, such as the Google Translate app, are able to translate text on images if installed on for example a phone.

Udtalelse vedrørende Alex Andreasen

03.08.2021

I ReSync har vi benyttet os af Alex Andreasen Consulting, hvor vi har arbejdet sammen med Alex. Samarbejdet har været i perioden 1/3 2021 – 1/7 2021.

Vi har været yderst tilfredse med samarbejdet med Alex, som har været i forbindelse med vores forløb på Innovativ Vækst ved Erhvershus Nordjylland. Alex har været vores UNITY udvikler, hvor han har udviklet fire spil til vores produkt. Han har været meget professionel i hans arbejdsgang og forberedelse til vores møder. Han har lyttet til vores krav, forklaret vores muligheder, samt kommet med input til nye ideer og udviklingsmuligheder.

Trods samarbejdet kun har været deltid i perioden, er det bestemt ikke noget vi har bemærket. Alex har arbejdet hurtigt og effektivt og leveret mere end tilfredsstillende resultater indenfor deadlines. Kommunikationen har været let og ligetil og vi har løbende været i dialog med hinanden, hvor Alex også har været god til at sende en status på hans arbejde.

Trods vi kun har afholdt møder med Alex online og ikke har mødt fysisk, har Alex fra start været i stand til at forklare tingene pædagogisk for os, trods vi ikke havde kendskab til UNITY inden vores samarbejde.

Vi vil ikke tøve med at benytte os af Alex igen, hvis vi skal have udviklet yderligere på samme eller et helt andet produkt. Han får en stor anbefaling fra os.

Vi står gerne til rådighed for uddybende kommentarer pr. mail.

Vi ønsker Alex al muligt held og lykke fremover.

Venlig hilsen

Michael Harbo

An English recommendation from Martin from the company MUST in Copenhagen can be found below. Since Martin was about to leave the company to seek new opportunities he preferred not to be contacted further. I helped them troubleshoot an AR application and proposed solutions, among others on how they could optimize their image tracking.

Hi Alex,

Thanks for your patience – just back in the office yesterday.

If you can use something like the below recommendation, you're most welcome to.

We engaged Alex for a fresh perspective on some critical errors during an app development process, where he researched and tested several avenues, helping our developers accelerate the troubleshooting process and solve the problem. Alex is very aware and transparent about his skills and capacity, making him a highly reliable partner on any task he commits.

Thanks,

Martin

MARTIN KRISTENSEN

CLIENT PARTNER

Bilingual Customer Service Representative

Concentrix UK

08/2013 - 09/2014

Belfast, UK

Concentrix is hired by other companies to take care of for example customer service for them.

- Took responsibility for customers and helped them resolve issues they experienced with their account, payments, handled complaints and made the customer feel they were in good hands.
- Handled passport images and other sensitive documents.
- Sent and answered emails in Danish and English.
- Made and received calls in Danish and English
