

Project: Domain Deliverability & Security Overhaul

Action: Audited current DNS records.

- Configured **SPF** (Soft-fail vs. Hard-fail), **DKIM** (2048-bit keys), and **DMARC** (p=reject policy).
- Integrated **Zoho Workspace** and hardened security with 2FA

Result: 100% "Green" health score on audit tools; 40% increase in cold email open rates.
