

Exercise 11

Create a innovative logo for your institute considering all the features of your institute.

Step 1: choose file->new.

Step 2: new dialog box opens and select attributes for the new file. Click OK after setting the attributes to create the new document.

Step 3: from the toolbar, click and hold shape tool and select a tool for the shape you want to draw. Here we had chosen Ellipse tool. With the shape layer selected, you can use move tool to reposition your shape on the canvas. In the pop-up menu. Choose fill/stroke option. You can apply the color.

Step 4: select custom tools from tool bar. Drag and draw the shapes into new page then apply color into drawn shape.

Step 5: In toolbox, select the Horizontal type tool. While you are typing, the cursor look like this, so you can adjust the typed text position. Click on wrap-text then click style (arc). Drag your text to the inside of your shape. This will automatically shift to wrap around inside edge of your shape.

Step 6: make right click on written text. Choose blending mode then dialog box will appears. You can apply blending options.

Step 7: you can add image into logo.

Step 8: In toolbox, select the Horizontal type tool. While you are typing, the cursor look like this, so you can adjust the typed text position. You can add features of collage along with logo design. Apply different text fonts with respect to colors.

Step 3:
