Hello, my name is _____. *[If you live in the district, identify yourself as a constituent.]*

It's unbelievable that the Mayor has proposed a city budget that calls for huge cuts in New York's social and human services while leaving the NYPD untouched. The NYPD has a \$6 billion dollar budget and the city spends over \$450 million policing NYC students. We need a fair budget that protects our frontline and essential workers, addresses racial inequities, and helps the homeless, and our youth. Young people deserve to have strong, supportive schools - free from police.

Can we count on you to vote to #DefundNYPD by \$1 billion dollars this year and fully remove police from schools?
