Description

In this session, we'll focus first on Google [Classroom](#). You'll come away with knowledge of how to use Classroom to streamline your digital resource and assignment distribution and collection with your students. We'll also explore Apps, Extensions, and Add-ons within Google Apps. We'll also go over Chromebook-specific tips & tricks to maximize your use of the device. You'll have time to work and ask questions as you explore.

Main Topics

- Create a Classroom course and invite or enroll students.
- Learn the basic components of the Classroom main screen, or "Stream".
- Understand the different options for adding to the stream using Announcement, Assignment, Question, and Re-use post.
- Know the relationship between Google Classroom and Drive, and how the two seamlessly work together & simultaneously.
- **Chromebook** use & tips you should know about the device!
- Navigate the Chrome Web Store for Apps & Extensions (and understand the difference). See how to add to your account and have time to demo education-specific Apps.
- Add functionality to Google Docs, Sheets, and Forms with Add-ons.
