About Us:

Acumen Connect is a mission-oriented organization, built to equip and empower students to make the right career choices. We're focused on enabling students to find their perfect career fit through unique experiential journeys. We've gone beyond formal education to create meaningful interventions for college students to ease their **Campus-To-Career (C2C)** transition.

About Our Programs:

- **Industry Connect Program**
  One of the biggest challenges that students face is the lack of awareness of how an organization and an industry function at large. Our Industry Connect Program bridges this gap by bringing together early career candidates and organizations looking for the right talent.

  The certificate program includes visits to leading enterprises in India where students get a first-hand experience of how office life really looks like. The students get opportunities to interact and network with employees and work on an enterprise specific case study.

- **Eduventure**
  An educational tour is an extension of a classroom. This customized Eduventure Program is developed to provide a 100% experiential learning experience along with various fun aspects in order to help students better understand themselves. Refer to this link for more information.
