Paper Title* (use style: *paper title*)

Subtitle as needed (*paper subtitle*)

Author Name[1,*], Author Name[2, 3], and Author Name[n]
[1]Organization/ University Name, City/Municipality, Country
[2]Organization/ University Name, City/Municipality, Country
[3]Organization/ University Name, City/Municipality, Country
[n]Organization/ University Name, City/Municipality, Country
[*]*e-mail address of the corresponding author*

***Abstract*—Please make sure that the abstract is between 250-300 words only. Do not use symbols, special characters, or equations in Paper Title or Abstract. (*Abstract*)**

Keywords—Component; formatting; style; styling; insert (*key words****)***

I. Introduction (*Heading 1*)

This template, which is inspired from the IEEE and IJACSA format, provides authors with the formatting specifications needed for preparing electronic versions of their papers. Authors are advised to edit and use this template. Maximum length of the paper is 12 pages.

II. Instructions

A. Paper Size (Heading 2)

This template has been tailored for output on the US-letter paper size.

B. Follow the Specifications

Identify applicable sponsor/s here. If no sponsors, delete this text box (*sponsors*).

The template is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed; please do not alter them.

III. This is another Example of Heading 1

You may write your paragraphs like this. You can add text for your manuscript following this as an example.

This is also another paragraph. You can add text for your manuscript following this as an example. If you want to use bullets under your Heading 2, you can follow this:

A. AnotherHeading 2

- You may use bullet points following this example. The content of your bullet points may look like this.
- You may use bullet points if it is helpful to properly present the content of your manuscript.

B. Equations

Please follow this style of using equations. You may use Times New Roman or the Symbol font only. You may also use graphics as an equation but please make sure that the image is of high quality.

Based on the provided example please note that the equation is centered. This example is provided for you to follow on how to place your equations in your text. Use "(1)", not "Eq. (1)" or "equation (1)", except at the beginning of a sentence: "Equation (1) is . . ."

a *b*

This is what the paragraph will look like after the equation. If you decide to use images as equations, please make sure that the image is of high quality.

C. Figures and Tables

a) How to Position Figures and Tables: Figure captions should be below the figures; table heads should appear above the tables. Insert figures and tables after they are cited in the text. Use the abbreviation "Fig. 1", even at the beginning of a sentence.

TABLE I. Table Type Styles

Table Head	Table Column Head		
	Table column subhead	*Subhead*	*Subhead*
copy	More table copy[a]		

[a] Sample of a Table footnote. (*Table footnote*)

This is what the figure should look like along with its appropriate caption. Please make sure that the image that you will use is of high quality.

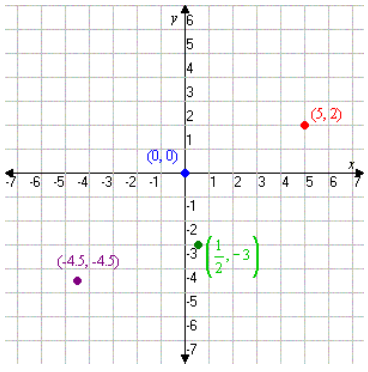

Fig. 1. Example of a figure caption. (*figure caption*)

ACKNOWLEDGMENT *(Heading 5)*

Kindly ensure to recognize the conference as we intend to endorse your paper for potential publication in a journal post-conference. Please include the following acknowledgment along with any others: "This paper was originally presented at the 2nd International Conference on the UN SDGs and Social Innovation (ICUNSSI 2026) held on September 24-25, 2026, at the Mindanao State University-Iligan Institute of Technology, Iligan City, Philippines."

REFERENCES

Following the IEEE citation style, the template will number citations consecutively within brackets [1]. You may use this style too [2-4]. Or you may also use this style [2, 5-7]. You may search more about the IEEE citation style for your reference. You may use free software like Mendeley or Zotero to help you manage your citations. We have provided an example from IJACSA on how to use the IEEE reference list.
