

# Western CUSD 12 - Acceleration Placement Program

## Grade and/or Course Level

### Failure to Maintain Standards

In order to maintain participation in the Western Accelerated Placement Program (Grade Level and/or Subject Area) during a school year, the student must meet the following objectives. These objectives will be evaluated on a quarterly basis.

- ☐ Grades in the accelerated course(s) will be monitored at each quarterly grading period.
  - ☐ Grades must be a "B" or higher in the course or course the student is accelerating in.
- ☐ Attendance and tardies in the accelerated course(s) will be monitored at each quarterly grading period.

I understand that my student must meet the aforementioned objectives in order to maintain placement in the Western Accelerated Placement Program (Grade Level and/or Subject Area). If he/she does not meet the criteria listed above, the following corrective steps will be put in place as listed below:

- ☐ The student will be placed on a probation period for the next quarter of instruction.
  - ☐ Parents/guardians will receive notification of the student being placed on probation.
- ☐ After **ONE (1)** quarter of probation, if the student still does not meet the objectives by the end of the next quarter, the following corrective steps will be put in place as listed below:
  - ☐ Reassignment of the student to the appropriate non-accelerated placement for the remainder of the school year.

I have read and understood the objectives that my student must maintain in order to maintain participation in the Western Accelerated Placement Program (Grade Level and/or Subject Area) during the next school year.
