Statement of child consent

Your parent/guardian has given permission for you to be involved in this research project. This form is to ask you to agree to participate in the research. The researchers would like to know more about how you play with things like LEGO robots, iPads, and other technology. They are also interested in how you make things and solve problems. To learn more about this they would like you to spend time in the Children's Technology Centre (CTC) with your parent/family. While you are there the researchers will be interested in what you create and also might take photos of these creations. They might also take photos, or video or audio record you, and ask you some questions about your time in the CTC. You can always ask them to stop recording or ask them not to photograph you. They will understand and be happy to stop.

By signing below, you are indicating that you have talked about this with your parent/guardian and:

- Understood the information about this research project.
- Have had any questions answered you have answered.
- Understand that if you have any additional questions you can ask the researcher.
- Understand that you can stop participating in the workshop at anytime.
- Understand that if you have concerns about the ethical conduct of the research project you can contact the Research Ethics Advisory Team on 07 3138 5123 or email humanethics@qut.edu.au.
- Understand that data collected may be used by the researchers in other similar projects.
- Understand that the research project will include an audio and video recording, but you can ask the researchers to stop recording at anytime.
- Agree to participate in the research project.
