SL: Something for you to try 👉

Hi Naveen,

Making LinkedIn quizzes is a great idea to stand out from the crowd.

Speaking of the questions, I absolutely nailed the 9th one...

I wanted to show you the strategy that freecodecamp.org, datacamp.com and codecademy.com are using. You can use it too and get new lifelong customers who will stay, pay, and refer.

It's a concise and quick strategy that you can apply now, and see results in less than a week.

The academies mentioned above became most famous and widely wanted by companies like FAANG using the framework I like to call "Crowd Compiler".

Would you be interested in talking about how you can use this strategy to grow your business?

Talk soon,
Branislav
