

Google Slides Activity Planning

Focus on objectives

What are your academic objectives for students?

What are your tech objectives for students?

What type of Slides activity will help achieve your objectives? What will your template look like?

How will you set up your Slides template to eliminate irrelevant steps?

Anticipate common issues

What potential issues do you anticipate students may have using this template?

What will you do to eliminate these issues or make them correctable?

Easy access for students

How will you share this activity with students? How will they access it from their devices?
