

Dear Warren Hills Families,

As we wrap up the first quarter of the 2025-2026 school year, I want to extend my heartfelt appreciation for your partnership during this week's Parent-Teacher Conferences. It was wonderful to see so many families engaged in conversations that support student learning and growth. Your involvement makes a meaningful difference, and we are grateful for your continued support. We are incredibly proud of our students for all they've accomplished in this first quarter. Their hard work, curiosity, and resilience continue to inspire us every day.

As we head into the long weekend, I also wanted to share with you a brief update regarding the ongoing proactive health and environmental efforts here at Warren Hills. For those new to our school community, you are likely aware of the district's efforts related to this health and environmental topic. Below are a few quick updates I wanted to share:

- For anyone within our school community interested in additional health and environmental work that has taken place here at Warren Hills, we would encourage you to visit our web page, which includes various test results and other documents. This page can be accessed by [clicking here](#).
- The District continues to await updates from both federal and state public health officials. Once received, we will be sure to share this information with you, along with posting all documents on our website for anyone interested.

As always, never hesitate to reach out to us here at school should you have any questions. Thanks for your contributions in helping make Warren Hills a great place to be, and have a wonderful weekend!

Michelle Swierski

Principal - Warren Hills Elementary
