

Dear Glen Taylor Parents,

We are thrilled to announce an upcoming event that promises to be both educational and fun for our students - STEAM Night! This initiative is designed to highlight the importance of Science, Technology, Engineering, Arts, and Mathematics (STEAM) in our curriculum. To make this event a success, we are seeking your support.

PROJECT FOCUS/EXPECTATIONS

STEAM Night is an opportunity for our students to showcase their creativity, critical thinking, and problem-solving skills. Each student will be working on an invention project, either individually or with a small group, that integrates elements of science, technology, engineering, arts, and mathematics. The projects will be displayed during STEAM Night, allowing our students to share their innovative ideas with the school community.

We encourage parents to discuss the project focus and expectations with their children, fostering a supportive environment at home that complements their efforts in school. This project aims to cultivate a passion for STEAM subjects and enhance their overall learning experience.

INTRODUCING STEAM NIGHT

STEAM Night is scheduled for March 28th from 5:00 p.m. to 7:00 p.m. The evening will feature engaging activities and an exhibit showcasing the incredible projects our students have been working on. It's a fantastic opportunity for parents, teachers, and students to come together and celebrate the achievements of our budding inventors.

We invite all parents to attend STEAM Night and witness firsthand the creativity and ingenuity of our students. Your presence will undoubtedly motivate and inspire them to pursue their interests in STEAM fields.

DONATION REQUEST

To ensure the success of STEAM Night and provide our students with a wide array of materials for their inventions, we are kindly requesting donations of unused and old items. These items can include but are not limited to:

- Cardboard boxes
- Plastic containers
- Scrap paper and cardboard
- Fabric and textiles
- Craft supplies (glue, tape, scissors, etc.)

Your generous donations will contribute to the resourcefulness and creativity of our students as they bring their inventions to life.

We truly appreciate your continued support and involvement in your child's education. Together, we can make STEAM Night a memorable and enriching experience for our students.

Sincerely,

Glen Taylor Teachers & Staff
