We want to experience deep love and friendship.

We want to feel mentally and physically strong, vibrantly healthy, and financially secure.

And we want to know that we're great at what we do – and that we're making a positive impact on the world.

**Unfortunately, most people don't know how to make their dreams come true.**

They spend their lives reacting to their existing circumstances instead of acting to create their ideal circumstances. When they do make an effort to change their lives, but don't get the results they want, they give up too easily and tell themselves to settle with whatever fate has handed them.

And so their ideal life remains an endless cycle of "what could have been."

**BUT YOU'RE NOT LIKE MOST PEOPLE**

**You know there is a more fulfilling life for you.**

You know you were born to do something amazing. Maybe you're not 100% sure what it is yet – but you know it lies in helping others.

That's why I'm so excited to tell you about this game-changing opportunity to achieve something remarkable with your life while helping others do the same.

You're about to discover a proven transformational training methodology that empowers others to overcome their biggest blocks and achieve their most ambitious goals.

### **And I'll be there every step of the way!**

### **How Do I Know this Works?**

I've taught this exact content on every continent in the world, and it has produced the same astonishing results each time.

It's worked with people of all ages, backgrounds, careers, and cultures.

There's something amazing that happens when you see people awaken their own potential for the first time.

### **To realize they have a CHOICE over how they live their life – and the POWER to change it for the better.**

And since you were the one to show them what's possible, you gain more confidence in your ability to transform people again and again.

Throughout my career, I've had mentors guide me along my own journey to becoming a human potential leader, trainer and coach, and I'd like to be that same mentor for you,

### **But My Success Didn't Come Overnight**

I've built the \$1 BILLION dollar Chicken Soup for the Soul book brand, and a multi-million dollar speaking and training empire, but here's something most people don't know about me...

I started out with next to nothing.

I didn't come from money or success – in fact, my father only made \$8,000 a year when I was growing up. I wasn't a great student. I struggled with weight and alcohol abuse early on in my life. I've been through two divorces.

I could go on and on, but I know... everyone has struggles.

I'm only telling you this because if I can overcome my challenges, I know you can overcome whatever is holding you back, and help others to do the same (while getting paid handsomely to do it).

### **Perfect for Teaching, Training, Speaking or Consulting in Any Field**
