10-Minute Quick Start Guide

🚀 The Market Control Framework™

10-Minute Quick Start Guide

⏱️ Minute 1–2: Open Your Intelligence Report

Before running anything:

✅ Make sure you have your completed Market Intelligence Report ready.

(This is generated from your Front-End product.)

You should have:

Clear niche & topic

Strategic analysis

Opportunity gaps

Positioning insight

Actionable intelligence

📌 If not, go back and generate it first.

You cannot build a method without structured intelligence.

⏱️ Minute 3–4: Open ChatGPT

Start a new chat.

Paste the Market Control Engine™ prompt.

Scroll to this section:

[PASTE YOUR COMPLETE MARKET INTELLIGENCE REPORT HERE]

Paste your full report inside.

Do not summarize it.

Do not trim it.

Paste the entire document.

⏱ Minute 5–6: Run The Engine

Click enter.

Let the system generate:

🏷️ Proprietary method name variations

🧱 Strategic pillars

🧩 Signature model

🎯 Category positioning language

🧠 Differentiation explanation

You are not editing yet.

You are observing structure.

⏱️ Minute 7–8: Select & Refine

Choose:

The strongest method name

The clearest 4–6 pillars

The most visualizable model

Optional refinement prompt:

“Refine this framework for clarity and simplicity while keeping authority tone.”

Short tweak only.

No over-editing.

⏱ Minute 9: Lock Your Framework

Now you officially have:

A named proprietary method

Structured transformation pathway

Clear positioning angle

This is no longer a report.

This is a system.

⏱ Minute 10: Deploy

You can now:

Add the framework to your sales page

Build a course around the pillars

Create visuals from the model

Position yourself as the creator of the method

Use it in consulting or coaching

You just moved from content seller…

To system owner.

🎯 What You Built in 10 Minutes

✔ A proprietary framework

✔ Category-level positioning

✔ Signature structural advantage

✔ Higher perceived value

✔ Authority amplification

No exaggeration.

Just structure.

And structure changes everything.
