Things To Improve and How To Improve Them

- prepositions
- conjunctions
- parts of speech = practice speaking, record and listen to yourself, be a little more careful, **be confident**.
- organization = practice, write down and read as practice, learn what native speakers say and then model them / copy them, think and plan before you speak, remember you're talking to someone and they don't your story so make it really clear and organized. In other words, **focus on the other person and make sure they can understand you so clearly**.
- pronunciation = read out loud, exaggerate your mouth movements and sounds, copy native speakers, **have some fun with pronunciation**.
