

Guide to signing up to ECB's Play Cricket website.

Play Cricket (www.play-cricket.com) is the ECB's website to administer the teams and leagues in which all amateur cricketers play. It is a requirement for our league that all matches and scorecards are correctly added here.

While we can add records on behalf of players, we prefer players to register themselves. Players who register themselves are able to log in to Play Cricket and access the features there.

This is a guide to the registration process.

Visit our Play Cricket site (<https://ncissc.play-cricket.com/>), and click the "Sign up" link at the top. Fill in the basic details form.

Play-Cricket Registration

If you are over 16 years old please complete your personal details below to start the registration process. If registering a child, you must create an account for yourself first as their parent or guardian, then login and select the Child Accounts link where you can register your son or daughter.

Please select any clubs or county boards that you play for so that they can add you to their members list within Play-Cricket. As part of this process your new user record will be merged with any other player records you may already have so that your statistics are all in one place. Once you have made your selections please select Continue.

If you do not currently play for a team, please select Continue

When that's done, you can continue, ignoring the similar steps about leagues and county boards. If this step is successful, we will be notified of your registration.

In order for you to play league matches, we must then league-register you. To do that, we need some additional information:

- (Name and email address)
- Phone number
- Home address & postcode
- Date of birth
- Country of birth
- Length of time living in UK

You can now use the Play Cricket website to provide us with this information from the Player Details and the Contact Information tabs of your profile page.
