### Abstract

Word limit: 150-300 words.

The abstract should be informative and understandable without referring to the text of the manuscript. the it includes

**Studi purpose.**

**Materials and methods.**

**Results.**

**Conclusions.**

**Keywords:** (3-6 words)

©2023 Authors by Universitas Musamus Merauke

### Introduction

The section should specify the main controversy to be investigated in the paper, analysis of recent research and publications, hypothesis, and purpose of the study.

### Materials and methods

#### Study participants.

Describe the participants of the study.

#### Study organization.

Indicate methods and the purpose of their use; research procedures and an algorithm for conducting a pedagogical experiment.

#### Statistical analysis.

Describe methods of mathematical statistics and the purpose of their use.

### Results

The study results should be presented in tables and described in a logical sequence.

### Discussion

- Overview of the main hypothesis;

- Discussion of conclusions: comparison with the data of publications related to the article topic, given in the introduction to the manuscript;
- Justifications and comments on the importance of the presented study results;
- Considerations on the possibility of practical application of the results;
- Conclusion on the prospects for further research, which is based on the discussion materials.

### Conclusions

Conclusions should reflect the results and be linked with the purpose of the study. Avoid conclusions that are not supported by the data obtained.

### Acknowledgment

An acknowledgements statement may contain detailing those who helped in carrying out the research but who have not been recognised as contributors, as well as personal expressions of gratitude.

### Conflict of interest

If the authors have any conflicts of interest to declare.

### References

References are formatted in the [APA style 6](#), listed in the order of citation appearance, and not numbered. citations from references of the last 10 years
